Environment Wellbeing and Health

Anglais – classe de Première technique

Fiche de TD – Anglais, Première technique (séries T)

Chapitre : Environment, Wellbeing and Health

Consigne : Réponds à toutes les questions en anglais, en phrases complètes et soignées. Justifie chaque réponse par un élément du texte ou une règle grammaticale. Durée conseillée : 2 heures.

EXERCICE 1 Grammar : used to / be used to

Kamdem, a guide at the Waza National Park, talks about changes in tourism in the Far North region of Cameroon.

1. Complete the sentences with the correct form of used to, didn't use to or be used to + the verb in brackets.
 - (a) Twenty years ago, very few tourists(visit) the Far North region.
 - (b) Today, Kamdem(speak) to foreign visitors every day ; it is part of his job.
 - (c) The road to Waza(be) very dusty, but it is tarred now.
 - (d) At first, Kamdem was shy, but now he(answer) tourists' questions in English.
 - (e) Tourists(not / take) photos of elephants at night ; now they use special cameras.
2. Write three sentences about your own village or town, comparing the past and the present, using used to and be used to.
3. Explain, in two sentences, the difference in meaning between I used to live in Maroua and I am used to living in Maroua.

EXERCICE 2 Grammar : tag questions and compound nouns

During a school gardening project at GBHS Bamenda, students plant trees to protect the school environment.

1. Add the correct tag question to each statement.
 - (a) The students planted mango trees last week, ?
 - (b) Gardening tools are expensive, ?
 - (c) We shouldn't cut down the trees near the stream, ?

- (d) Mr. Ndi doesn't use chemical fertilisers, ?
- (e) Let's water the seedlings this afternoon, ?
2. Form compound nouns by matching a word from column A with a word from column B, then give their plural forms.

A	B
water	mate
class	fall
rain	bottle
tooth	brush
green	house

3. Use three of these compound nouns (in the singular or plural) in sentences about gardening or protecting natural habitats in Cameroon.

EXERCICE 3 Reading : preventing communicable diseases

Read the text, then answer the questions.

In the health district of Bafoussam, cases of cholera increased during the rainy season. Health workers visited schools and markets to teach people simple rules : wash hands with soap before eating, drink only treated or boiled water, cover food to protect it from flies, and use clean latrines. Posters in French, English and local languages were displayed everywhere. After three months, the number of new cases dropped by half. The district medical officer explained that prevention is cheaper than treatment and that every family has a role to play in stopping communicable diseases such as cholera, malaria and typhoid fever.

- Say whether the following statements are True or False, and justify each answer with a quotation from the text.
 - Cholera cases increased during the dry season.
 - Health workers gave advice in schools and markets.
 - The number of new cases decreased after the campaign.
 - Treatment is cheaper than prevention.
- Find in the text words or expressions meaning : (a) "illnesses that pass from one person to another" ; (b) "notices with pictures and information".
- List four preventive measures mentioned in the text.

4. In a short paragraph (5–6 lines), explain how your school community can help prevent malaria. Use at least three words from the vocabulary of health.

EXERCICE 4 Grammar : direct and indirect speech

A nurse at the integrated health centre of Ebolowa is interviewing a patient, Mrs. Abena.

1. Report the following sentences in indirect speech. Begin with : The nurse told/asked Mrs. Abena...
 - (a) "You must drink boiled water every day."
 - (b) "Do you sleep under a mosquito net?"
 - (c) "I will give you some medicine tomorrow."
 - (d) "Don't eat food sold in the open air."
 - (e) "Why didn't you come to the health centre last week?"
2. Put the following reported sentences back into direct speech.
 - (a) Mrs. Abena said that her children had been vaccinated the previous month.
 - (b) She asked the nurse if she could come back the following day.
3. Explain the changes that occur in tenses, pronouns and time expressions when we move from direct to indirect speech. Give one example for each change.

EXERCICE 5 Writing : communicating on health issues

The Ministry of Public Health has launched a campaign against communicable diseases in technical high schools. As the president of the Health Club of your school, you must act.

1. Write a short speech (80–100 words) that you will deliver during the morning assembly to sensitise your schoolmates on the prevention of cholera and malaria. Use at least two tag questions and two compound nouns.
2. Write a short report (60–80 words) to your principal, in indirect speech, presenting what the Health Club members said and decided during their last meeting about cleaning the school environment and planting trees.
3. Justify in 3–4 lines why communicating in English about health issues is important in Cameroon.
