

ANGLAIS • TLE TECH

ANGLAIS – CLASSE DE TERMINALE TECHNIQUE

LEÇON N01

FAMILY AND SOCIAL LIFE

DURÉE CONSEILLÉE : 13 SÉANCES (FICHE DE PROGRESSION HARMONISÉE)

DANS CETTE LEÇON

Cette leçon prépare les élèves de Terminale technique à réussir un entretien d'embauche en anglais, à parler de leurs activités de loisirs et à anticiper leurs besoins en langue anglaise dans le monde professionnel camerounais. Elle mobilise des outils grammaticaux clés (present perfect continuous, future continuous, embedded questions, question tags, phrasal verbs) à travers des situations concrètes de la vie courante.

- À la fin de cette leçon, je sais donner et recevoir des instructions pour me préparer à un entretien d'embauche en anglais.
- À la fin de cette leçon, je sais utiliser le vocabulaire lié aux entretiens d'embauche (CV, qualifications, strengths, weaknesses...).
- À la fin de cette leçon, je sais comprendre un texte oral sur les activités de loisirs et utiliser le vocabulaire approprié.
- À la fin de cette leçon, je sais employer correctement le present perfect continuous et le future continuous.
- À la fin de cette leçon, je sais construire des phrases et questions indirectes (embedded statements/questions).
- À la fin de cette leçon, je sais utiliser les question tags pour confirmer une information.

SOMMAIRE

1. Undergoing a job interview (Speaking & Vocabulary)
2. Recreational activities (Listening & Vocabulary)
3. Tenses : present perfect continuous & future continuous
4. Embedded questions, question tags & phrasal verbs
5. Anticipating second-language needs
6. Writing : composition on second-language needs at work
7. Activité d'intégration
8. Méthodes et exercices résolus
9. Exercices
10. Corrigés des exercices
11. Fiche bilan

OBJECTIFS DE LA LEÇON

- À la fin de cette leçon, je sais donner et recevoir des instructions pour me préparer à un entretien d'embauche en anglais.
- À la fin de cette leçon, je sais utiliser le vocabulaire lié aux entretiens d'embauche (CV, qualifications, strengths, weaknesses...).
- À la fin de cette leçon, je sais comprendre un texte oral sur les activités de loisirs et utiliser le vocabulaire approprié.
- À la fin de cette leçon, je sais employer correctement le present perfect continuous et le future continuous.
- À la fin de cette leçon, je sais construire des phrases et questions indirectes (embedded statements/questions).
- À la fin de cette leçon, je sais utiliser les question tags pour confirmer une information.
- À la fin de cette leçon, je sais employer les phrasal verbs et les prepositional phrases dans des situations réelles.
- À la fin de cette leçon, je sais rédiger une composition sur l'anticipation de mes besoins en anglais au travail.
- À la fin de cette leçon, je sais réviser et corriger mes points faibles en grammaire.

PRÉREQUIS

- Les temps de base acquis en Première : present simple, present continuous, past simple, future simple (will/going to).
- Le vocabulaire général du monde du travail vu en Première (jobs, occupations, work-places).
- La formation des questions directes (inversion du sujet et de l'auxiliaire, mots interrogatifs).
- Les auxiliaires do/does/did, have/has, be et les modaux (can, must, should).
- La rédaction d'un paragraphe simple et d'une lettre formelle (vues en Seconde et Première).

1 UNDERGOING A JOB INTERVIEW (SPEAKING & VOCABULARY)

1.1 Hook situation & problem statement

EXEMPLE Situation d'accroche

Ariane, élève en Terminale Génie Civil au Lycée Technique de Douala, vient de décrocher un entretien de stage chez SOGEA SATOM à Bonabéri. L'entreprise exige qu'elle se présente en anglais, car ses chantiers accueillent des partenaires nigériens et ghanéens. Pendant son temps libre, elle joue au football et écoute de la musique pour se détendre avant le grand jour. Comment doit-elle se préparer pour réussir son entretien, parler de ses loisirs et anticiper ses besoins en anglais au travail ? Cette leçon l'accompagne pas à pas.

1.2 What is a job interview ?

DÉFINITION Job interview

A **job interview** is a formal meeting where an employer asks questions to decide if a candidate is suitable for a job. En français : un entretien d'embauche.

À RETENIR Key terms

- **applicant / candidate** : la personne qui postule (candidat)
- **interviewer** : la personne qui mène l'entretien (recruteur)
- **interviewee** : la personne qui passe l'entretien (candidat face au recruteur)
- **CV / résumé** : curriculum vitae (CV)
- **cover letter** : lettre de motivation
- **qualifications** : diplômes, certifications
- **experience** : expérience professionnelle / stages
- **strengths / weaknesses** : points forts / points faibles
- **salary** : salaire
- **position / vacancy** : poste / poste vacant

- **reference** : référence (personne qui recommande)

1.3 Steps of the recruitment process

Étapes du processus de recrutement : Application
→ Shortlisting → Interview → Decision → Feedback.

EXEMPLE Détail des étapes

1. Application : envoyer CV + cover letter pour une **vacancy** (poste vacant).
2. Shortlisting : l'employeur sélectionne les meilleurs dossiers.
3. Interview : entretien en face-à-face, par téléphone ou visioconférence.
4. Decision : l'employeur choisit le candidat retenu.
5. Feedback : retour (positif ou négatif) envoyé aux candidats.

1.4 Giving instructions for a job interview

PROPRIÉTÉ Expressions pour donner des instructions

On utilise l'impératif (base verbale sans sujet) pour donner des consignes claires.

Instruction (English)	Traduction / Contexte
Dress formally.	S'habiller de façon formelle (costume, tenue professionnelle).
Arrive 15 minutes early.	Arriver 15 minutes en avance.
Bring your certificates.	Apporter vos certificats / diplômes.
Greet the panel politely.	Saluer le jury poliment.
Maintain eye contact.	Maintenir le contact visuel.
Speak clearly and confidently.	Parler clairement et avec assurance.
Listen carefully to each question.	Écouter attentivement chaque question.
Turn off your phone.	Éteindre votre téléphone.

1.5 Receiving and confirming instructions

PROPRIÉTÉ Expressions pour recevoir et confirmer

Ces formules montrent que vous écoutez activement et que vous avez compris.

Expression	Utilisation
Could you repeat that, please?	Demander une répétition poliment.
Do you mean I should ... ?	Reformuler pour vérifier sa compréhension.
I see, thank you.	Confirmer qu'on a compris.
Just to confirm : I need to ...	Résumer l'instruction pour valider.
Should I bring anything else?	Demander s'il y a d'autres documents à apporter.

EXERCICE RÉSOLU 1 Exercice : Compléter le dialogue

Énoncé : Complétez avec les expressions ci-dessus.

Interviewer	Candidate
"Please arrive at 8 :30 a.m. and bring your BT diploma."	Do you mean I should arrive at 8 :30 a.m. with my BT diploma?
"Yes, and also your internship report."	Just to confirm : I need to bring my BT diploma and my internship report.
"The interview will last about 30 minutes."	I see, thank you.

SOLUTION

Solution : Voir le tableau ci-dessus. Les réponses attendues sont en italique.

1.6 Common interview questions & model answers

À RETENIR Questions fréquentes en entretien

1. Tell us about yourself. (Parlez-nous de vous.)
2. Why should we hire you? (Pourquoi devrions-nous vous embaucher?)
3. What are your strengths and weaknesses? (Quels sont vos points forts et vos points faibles?)

4. Where do you see yourself in 5 years? (Où vous voyez-vous dans 5 ans?)
5. Why do you want to work here? (Pourquoi voulez-vous travailler ici?)
6. Do you have any questions for us? (Avez-vous des questions pour nous?)

MÉTHODE**Structure de réponse : « Tell us about yourself »**

Utilisez la méthode PPF (Present – Past – Future) :

1. Present : qui vous êtes maintenant (classe, spécialité).
2. Past : votre formation, vos stages, vos projets techniques.
3. Future : pourquoi ce poste / stage vous intéresse.

EXEMPLE**Réponse modèle pour Ariane (Génie Civil)**

Interviewer : « Tell us about yourself. »

Ariane : « Good morning. My name is Ariane Mbarga. I am a final-year student in Civil Engineering (Génie Civil) at the Lycée Technique de Douala. I am preparing my Baccalauréat Technique (Bac Tech).

During my training, I completed a three-month internship at SOGEA SATOM where I assisted the site engineer in reading plans, supervising concrete pouring and checking material quality. I also worked on a school project designing a drainage system for a residential area.

I am rigorous, punctual and I work well in a team. I want to do this internship because SOGEA SATOM is a leader in public works in Cameroon and I want to learn from experienced engineers on real construction sites. »

EXEMPLE**Réponse modèle : « What are your strengths and weaknesses? »**

Strengths (Points forts) :

- « I am organized and meet deadlines. » (Je suis organisé et je respecte les délais.)
- « I have good technical drawing skills (AutoCAD). » (J'ai de bonnes compétences en dessin technique.)
- « I adapt quickly to new tools and methods. » (Je m'adapte vite aux nouveaux outils/méthodes.)

Weaknesses (Points faibles) – tournez-les en positif :

- « I sometimes focus too much on details, but I am learning to prioritize. » (Je me

concentre trop sur les détails, mais j'apprends à prioriser.)

- « My spoken English needs improvement, so I practise daily with podcasts and colleagues. » (Mon anglais oral a besoin d'amélioration, donc je m'entraîne chaque jour.)

1.7 Guided simulation : Interview at CAMTEL

EXERCICE RÉSOLU 2 Dialogue modèle annoté : Entretien chez CAMTEL pour un poste de technicien

Contexte : Ariane postule pour un stage de technicien maintenance chez CAMTEL Douala. L'entretien se déroule en anglais (entreprise bilingue).

#	Interviewer	Candidate (Ariane)
1	"Good morning. Please have a seat. Can you introduce yourself?"	"Good morning. Thank you. I am Ariane Mbarga, a Terminale student in Electrotechnics at Lycée Technique de Douala. I hold a Probatoire in Electrical Engineering and I am preparing my Baccalauréat Technique. I did a two-month internship at ENEO where I assisted in transformer maintenance and cable fault

2 "Why CAMTEL?"

"CAMTEL is the leading telecom operator in Cameroon

Annotations clés :

- Réponses concrètes (noms d'entreprises, outils, durées).
- Vocabulaire technique : **transformer maintenance**, **cable fault detection**, **fiber optics**, **OTDR**, **lockout/tagout**.
- Structure STAR pour la question 4 : Situation – Task – Action – Result.
- Question finale montre intérêt et professionnalisme.

1.8 Body language & attitudes during an interview

Do's ✓

- Arrive 10–15 min early
- Firm handshake + smile
- Sit up straight, lean slightly forward
- Maintain natural eye contact
- Listen fully before answering
- Ask relevant questions at the end
- Thank the panel + send follow-up email

Don'ts ✗

- Arrive late or out of breath
- Weak handshake, no eye contact
- Slouch, cross arms, fidget
- Stare at the floor or ceiling
- Interrupt the interviewer
- Say "I don't know" to everything
- Leave without thanking anyone

Do's vs Don'ts pendant un entretien d'embauche : attitudes et langage corporel.

ATTENTION Erreur fréquente : « I have 18 years »

Ne dites jamais : « I have 18 years. » (Traduction littérale incorrecte.)

Dites : « I am 18 years old. » ou simplement « I am 18. »

Incorrect (Français)	Correct (English)
I have 20 years.	I am 20 (years old).
I have hunger.	I am hungry.
I have thirst.	I am thirsty.
I have cold.	I am cold.
I have right.	I am right.

Règle : En anglais, l'âge et les états physiques s'expriment avec BE + adjectif, pas HAVE + nom.

LESAVAIS-TU ? Le savais-tu ?

Au Cameroun, de nombreuses entreprises bilingues (SONARA, Port Autonome de Douala, CAMTEL, ENEO, Brasseries du Cameroun) exigent un entretien partiellement en anglais même pour des postes purement techniques. Pourquoi ? Parce que ces entreprises travaillent avec des partenaires nigériens, ghanéens, sud-africains ou chinois, et la documentation technique (normes IEC, manuels CAT, schémas Siemens) est souvent en anglais. Maîtriser l'anglais technique est un atout majeur pour l'employabilité !

1.9 Practice exercises

EXERCICE 1 Exercice 1 : Vocabulary matching

Faites correspondre chaque terme à sa définition.

- | | |
|-----------------|----------------------------------|
| 1. Applicant | a) Personne qui mène l'entretien |
| 2. Interviewer | b) Lettre de motivation |
| 3. Cover letter | c) Points forts |
| 4. Strengths | d) Candidat |
| 5. Vacancy | e) Poste vacant |

CORRIGÉ Exercice 1

1-d, 2-a, 3-b, 4-c, 5-e.

EXERCICE 2 Exercice 2 : Transformez en instructions (impératif)

1. You should dress formally. → _____
2. You must arrive early. → _____
3. You have to bring your CV. → _____
4. You need to switch off your phone. → _____

CORRIGÉ Exercice 2

1. Dress formally. 2. Arrive early. 3. Bring your CV. 4. Switch off your phone.

EXERCICE 3 Exercice 3 : Réponse « Tell us about yourself »

Rédigez votre propre réponse (5–6 phrases) en utilisant la méthode PPF (Present – Past – Future). Vous êtes en Terminale [votre spécialité] au [votre lycée]. Mentionnez : votre diplôme visé (Bac Tech / BT), un stage ou projet technique, une qualité, votre motivation pour le poste visé.

CORRIGÉ Exercice 3

Modèle : « Good morning. My name is [Prénom Nom]. I am a final-year student in [Spécialité] at [Lycée Technique]. I am preparing my [Baccalauréat Technique / BT]. During my training, I completed a [durée] internship at [Entreprise] where I [tâche technique 1] and [tâche technique 2]. I am [qualité 1] and [qualité 2]. I want this position because [raison liée à l'entreprise / au poste]. »

EXERCICE 4 Exercice 4 : Simulation orale (par binômes)

Consigne : L'un joue le recruteur (ENEO / CAMTEL / Atelier de Douala), l'autre le candidat. Utilisez les 6 questions de la section « Common interview questions ». Le recruteur note : vocabulaire technique, structure PPF/STAR, langage corporel (contact visuel, posture), politesse. Inversez les rôles.

Grille d'évaluation (sur 10) :

- Vocabulaire technique pertinent : /3
- Structure des réponses (PPF / STAR) : /3
- Langage corporel & politesse : /2
- Fluidité & prononciation : /2

À RETENIR Check-list avant l'entretien : READY

Lettre	Action
R	Research the company (étudier l'entreprise)
E	Prepare your answers (préparer les réponses types)
A	Arrive early (arriver en avance)
D	Dress professionally (s'habiller professionnellement)
Y	Your best attitude : polite, confident, grateful (votre meilleure attitude : poli, confiant, reconnaissant)

2 RECREATIONAL ACTIVITIES (LISTENING & VOCABULARY)

After practising how to **give** and **receive instructions** for a job interview, we now turn to a more relaxed but equally important part of life : **recreation**. In the world of work, knowing how to manage your **free time** and talk about your **hobbies** helps you socialise with colleagues, reduce stress, and maintain a healthy work-life balance. This section will equip you with the vocabulary to describe your favourite pastimes, the grammar to express your preferences correctly, and the listening strategies to understand native and non-native speakers talking about leisure.

2.1 What is Recreation ?

DÉFINITION Recreation / Leisure

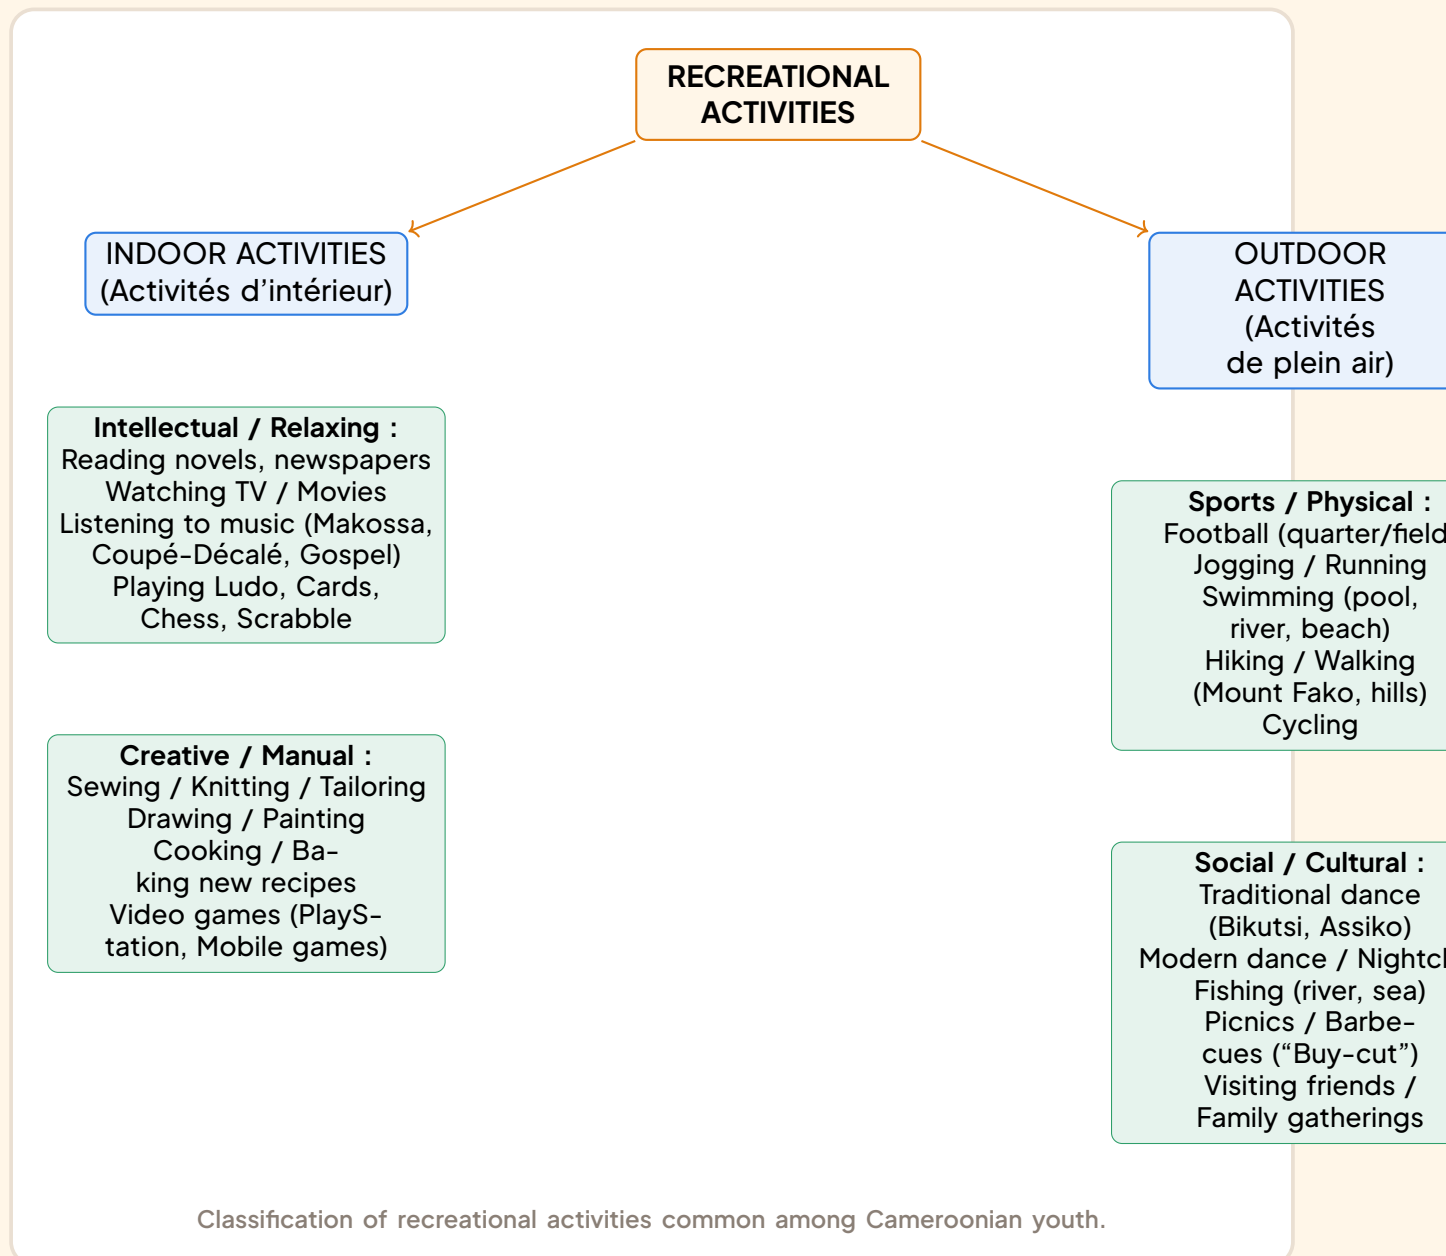

Recreation (or **leisure**) refers to activities that people do during their **free time** (time when they are not working or studying) for **enjoyment**, **relaxation**, or **pleasure**. These activities are voluntary and provide a break from daily duties.

À RETENIR Key Terms

- Hobby (passe-temps favori) : An activity done regularly in one's leisure time for pleasure.
- Pastime (divertissement) : Something that serves to make time pass agreeably.
- Indoor activities (activités d'intérieur) : Done inside the house or a building (e.g., reading, playing Ludo, sewing, watching TV, video games).
- Outdoor activities (activités de plein air) : Done outside in the open air (e.g., football, hiking, fishing, dancing, swimming, jogging).

2.2 Vocabulary : Classifying Recreational Activities

Let us classify common recreational activities in Cameroon. Understanding this distinction helps you use the right prepositions (play **at** home vs play **in** the field) and vocabulary.

2.3 Expressing Likes, Dislikes and Preferences

To talk about recreation, you must master the language of **preference**. In English, verbs of feeling (like, love, enjoy, hate, prefer) are followed by specific structures.

PROPRIÉTÉ Structures of Preference

Verb / Expression	Structure	Example
Enjoy	enjoy + V-ing	I enjoy reading novels.
Be fond of	be fond of + V-ing / Noun	She is fond of dancing.
Be keen on	be keen on + V-ing / Noun	We are keen on football.
Like / Love / Hate	like/love/hate + V-ing (general preference)	I like swimming.
	like/love/hate + to-infinitive (specific occasion/habit)	I like to swim every morning.
Can't stand	can't stand + V-ing	He can't stand watching violent movies.
Prefer	prefer + V-ing + to + V-ing	I prefer reading to watching TV.
	would rather ('d rather) + bare infinitive + than + bare infinitive	I'd rather play Ludo than watch TV.

EXEMPLE Expressing Preferences in Context

A : What do you usually do on Sundays?

B : I enjoy going to church in the morning. In the afternoon, I'd rather rest at home. I can't stand staying idle for too long, so I often go for a walk.

A : Do you like video games?

B : Not really. I prefer playing football to playing video games. I am keen on outdoor sports.

ATTENTION Common Error : 'I am agree'

Never say : "I am agree with you."

Correct : "I agree with you."

Reason : **Agree** is a main verb, not an adjective. It does not take the auxiliary be.

- I agree. (Present Simple)
- I don't agree. (Negative)
- Do you agree? (Question)

Similarly : "I am interested in..." (Interested is an adjective → be + interested) vs "I interest..." (Wrong).

2.4 Talking about Frequency

When describing habits and routines related to hobbies, we use **adverbs of frequency** and **time expressions**.

PROPRIÉTÉ Adverbs of Frequency (Position)

Rule : Place the adverb before the main verb but after the verb be and after auxiliaries.

Subject + Adverb + Main Verb | Subject + be/auxiliary + Adverb + Main Verb

Frequency	Adverb	Example
100%	Always	I always play football on Saturdays.
90%	Usually / Generally	She usually reads before sleeping.
70%	Often / Frequently	We often go hiking.
50%	Sometimes	He sometimes watches TV.
30%	Rarely / Seldom	They rarely go to the cinema.
10%	Hardly ever	I hardly ever sew.
0%	Never	She never fishes.

With be : He is always late for training.

With auxiliaries : We have never been fishing.

À RETENIR Expressions of Frequency (usually at end of sentence)

- **Once a week / Twice a month / Three times a year**
- **Every day / Every weekend / Every Sunday**
- **From time to time / Once in a while**

2.5 Listening Skills : Strategies for Success

Listening in an exam context (Probatoire/Baccalauréat technique) requires a method. Do not just “hear”; **listen actively**.

MÉTHODE How to Succeed in a Listening Task

1. Read the questions FIRST (use the 1–2 minutes preparation time). Underline **keywords** (Who? What? Where? When? How often?).
2. Predict the topic and vocabulary. If keywords are “football”, “weekend”, “friends”,

expect sports vocabulary.

3. First listening (Global / Gist) : Get the **main idea**. Who is speaking? What is the general topic? Don't panic if you miss details.
4. Second listening (Selective / Detail) : Focus only on the answers to your questions. Write short notes/abbreviations (e.g., "wknd" for weekend, "w/" for with, "Fball" for football).
5. Check and Complete : Use the pause or third listening to verify spelling and grammar in your answers.

2.6 Listening Practice : Weekend Leisure in Yaoundé

Context : Two Terminale students, **Chantal** and **Bruno**, meet at the Carrefour Warda in Yaoundé on a Saturday morning. They discuss their weekend plans.

EXERCICE RÉSOLU 3 Listening Comprehension : Grid Completion

Instructions : Listen to the dialogue (or read the script below) and complete the grid.

Audio Script : Chantal : Hi Bruno! Nice to see you. What are you up to this weekend?

Bruno : Hi Chantal! I'm doing great. Well, today I have football training at the Stade Omnisports at 3 p.m. I play for the quarter team, "Les Lions Juniors". We train twice a week,

Wednesdays and Saturdays. Chantal : That sounds energetic! I prefer something quieter.

This afternoon, I'm keen on finishing the novel I started : "The Poor Christ of Bomba". I enjoy reading African literature. Tomorrow, Sunday, I'd rather go to the Ngoa-Ekellé market

with my sister to buy fabric for sewing a new dress. Bruno : Sewing? That's a cool hobby.

Do you do it often? Chantal : Once a week, usually on Sundays. I can't stand buying ready-

made clothes ; they never fit well. What about tomorrow? Bruno : Tomorrow morning, we

have a friendly match against a team from Essos at 9 a.m. In the afternoon, I'll just rest. I

never go out on Sunday evenings ; I prepare my lessons for Monday. Chantal : You are well

organised! Enjoy your match. See you at school on Monday! Bruno : Thanks! You too. Bye!

Task : Complete the table.

SOLUTION

Solution : Completed Comprehension Grid

Information Required	Chantal	Bruno
Main Activity (Saturday)	Reading a novel (African literature)	Football training (Quarter team)
Location	Home (Sat) / Ngoa-Ekellé Market (Sun)	Stade Omnisports (Sat), Essos field (Sun)
Time	Afternoon (Sat), Morning (Sun)	3 p.m. (Sat), 9 a.m. (Sun)
Frequency	Sewing : Once a week	Training : Twice a week
Preference Expression Used	"I enjoy reading", "I'm keen on", "I'd rather go", "I can't stand"	"I never go out"
Companion	Sister (Sunday)	Teammates / Friends

2.7 Speaking Practice : Leisure Activities of Cameroonian Youth

Now it is your turn to produce language. Use the vocabulary, frequency adverbs, and preference structures learned.

EXERCISE 5 Guided Oral Production

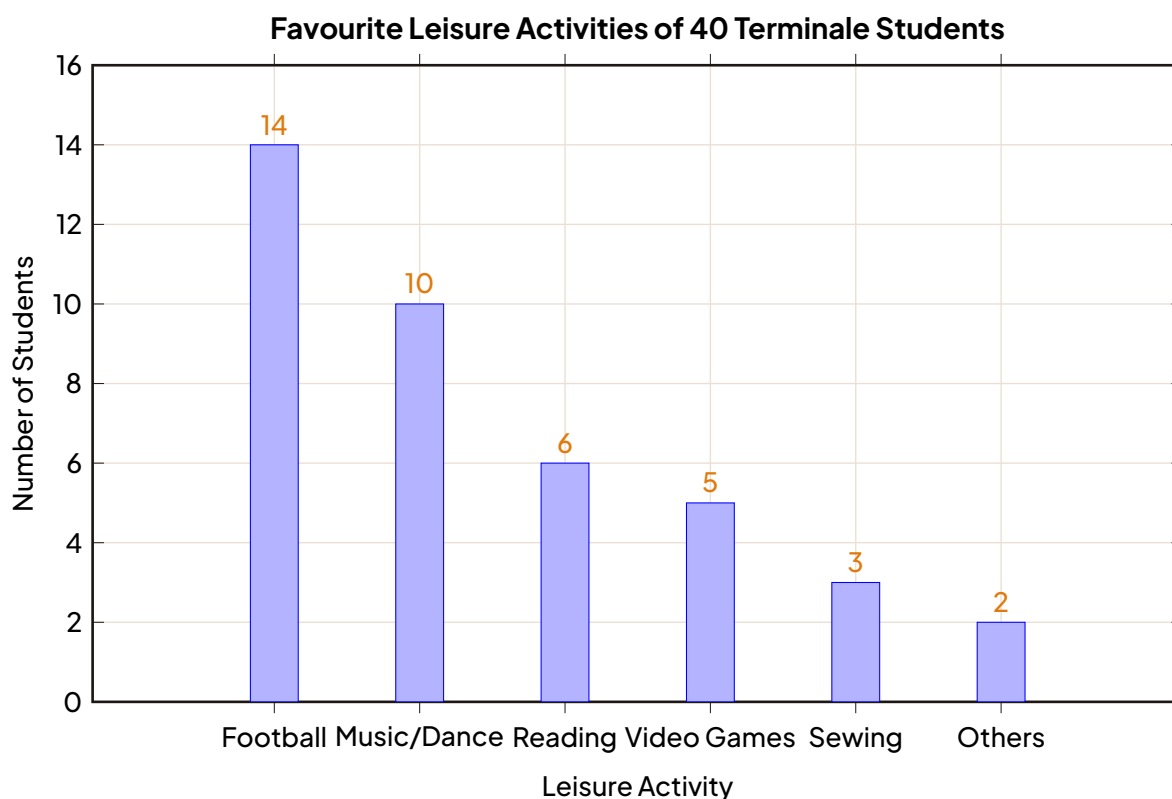

Work in pairs. Ask and answer questions about your recreational activities. Use the prompts below. Record yourselves if possible.

1. Indoor : What indoor activity do you enjoy most? (Reading, Ludo, Video games, Sewing, Movies?) How often?
2. Outdoor : Are you keen on football, hiking, dancing, or swimming? Where do you go? With whom?
3. Cultural : Do you listen to Makossa, Bikutsi, Coupé-Décalé, or Gospel? Can you dance Assiko or Bottle dance?
4. Preference : "Would you rather play video games or play football with friends? Why?"
5. Frequency : "How often do you go to the quarter field / youth centre / library?"

Model Answer : "I enjoy playing Ludo with my cousins twice a week. I am fond of Makossa music. At the weekend, I usually go to the quarter field to watch football matches. I'd rather watch than play because I can't stand running too much!"

2.8 Statistics : Favourite Leisure Activities (Data Interpretation)

Data literacy is part of technical education. Let us analyse a survey conducted on 40 Terminale students in a technical high school in Douala.

Bar chart showing the distribution of favourite leisure activities (Sample : 40 students).

EXERCICE RÉSOLU 4 Data Analysis & Language Practice

Questions :

1. Which activity is the most popular? Which is the least popular among the listed ones?
2. What percentage of students prefer Football? (Round to nearest whole number).
3. Compare Reading and Video Games using a comparative structure.
4. Write a sentence using "The majority of..." and "A minority of..."

SOLUTION

Solutions :

1. Most popular : Football (14 students). Least popular : Sewing (3 students) – excluding "Others".
2. Percentage for Football : $\frac{14}{40} \times 100 = 35\%$.
3. "More students prefer reading (6) than video games (5)." OR "Reading is slightly more popular than video games."

4. "The majority of students (35%) prefer football, while a minority prefer sewing (7.5%)."

2.9 Exercises : Consolidation

EXERCICE 6 Vocabulary & Grammar : Multiple Choice

Choose the correct option (A, B, or C).

1. My brother _____ playing the guitar every evening.
A. enjoy
B. enjoys
C. enjoying
2. We _____ go to the cinema ; maybe once a year.
A. often
B. usually
C. rarely
3. I _____ swimming _____ running. I prefer the pool.
A. prefer / than
B. prefer / to
C. 'd rather / than
4. She _____ stand the noise of the generator.
A. can
B. can't
C. doesn't
5. _____ you _____ interested in learning Spanish for your job ?
A. Do / be
B. Are / -
C. Have / been

CORRIGÉ Exercice : Vocabulary & Grammar

1. B (enjoys) – 3rd person singular requires –s.
2. C (rarely) – “Once a year” indicates very low frequency.
3. B (prefer / to) – Structure : prefer + V-ing + to + V-ing. (Option C would require bare infinitive : 'd rather swim than run).
4. B (can't) – Can't stand = hate intensely.
5. B (Are / -) – Interested is an adjective → be + interested.

EXERCICE 7 Writing : Short Paragraph

Write a short paragraph (60–80 words) about your ideal weekend. Include :

- One indoor and one outdoor activity.
- Two frequency expressions (e.g., usually, twice a week).
- Two preference structures (e.g., enjoy, 'd rather, can't stand, prefer... to).
- Mention a specific place in your town/region (e.g., Mfoundi market, Limbe beach, Fouban palace).

CORRIGÉ Exercice : Writing – Sample Answer

“My ideal weekend starts on Saturday morning. I usually help my mother at the Mfoundi market (outdoor). In the afternoon, I enjoy reading technical magazines at home (indoor). On Sunday, I'd rather play football with my friends at the quarter field than stay indoors. I can't stand being lazy. I go to the field twice a month. In the evening, I prepare my lessons for the week.”

LESAVAIS-TU ? Le Football au Cameroun : Une Passion Nationale

Le football n'est pas seulement un sport au Cameroun, c'est une **institution sociale**.

- Les Lions Indomptables ont remporté la Coupe d'Afrique des Nations (CAN) 5 fois : 1984, 1988, 2000, 2002, 2017.
- Roger Milla a ébloui le monde en 1990 (Italie) en devenant le plus vieux buteur de l'histoire de la Coupe du Monde (42 ans en 1994).
- Chaque quartier (“quarter”) a son terrain de terre battue où les jeunes s'entraînent tous les soirs après l'école ou le travail.
- Le vocabulaire technique s'infiltre dans le langage courant : “Faire un dribble” (éviter un

problème), “Marquer un but” (réussir un coup), “Hors-jeu” (être exclu/perdu).
Parler football est le meilleur **brise-glace** (ice-breaker) pour s’intégrer dans n’importe quelle équipe de travail au Cameroun!

3 TENSES : PRESENT PERFECT CONTINUOUS & FUTURE CONTINUOUS

3.1 Transition from recreational activities

In the previous section, we listened to people talking about their hobbies and free time. You heard sentences like “I have been playing football since childhood” or “This time next week, I will be hiking on Mount Cameroon.” These sentences use two important tenses : the **present perfect continuous** and the **future continuous**. Before we study them in detail, let us quickly revise the tenses you learned in Première and identify common problem areas.

À RETENIR Quick revision of Première tenses & problem areas

- Present simple : habits, facts, timetables. I work at the garage. (J travaille au garage.)
- Present continuous : action happening now, temporary situations. I am repairing a car. (Je suis en train de réparer une voiture.)
- Past simple : finished action at a definite past time. I repaired a car yesterday. (J’ai réparé une voiture hier.)
- Past continuous : action in progress at a past moment. I was repairing the car when the boss arrived. (Je réparais la voiture quand le chef est arrivé.)
- Present perfect simple : past action with present result / experience. I have repaired the car. (J’ai réparé la voiture — elle est prête maintenant.)
- Present perfect continuous : **duration** of an activity up to now (see below).
- Future (will / going to) : predictions, plans, decisions. I will repair the car tomorrow. / I am going to repair the car.
- Future continuous : action in progress at a specific future moment (see below).

Common problem areas to watch :

- Confusing present simple and present continuous (*I am knowing him → I know him).
- Using present simple with since/for (*I work here since 2020 → I have been working here since 2020).
- Forgetting been in perfect continuous (*I have working → I have been working).

- Using continuous forms with stative verbs (*I am having a car → I have a car).

Now we focus on two tenses that highlight **duration** (present perfect continuous) and **actions in progress at a specific future moment** (future continuous).

3.2 Present perfect continuous

DÉFINITION Present perfect continuous

A tense used for actions that started in the past and are still continuing, or have just stopped, with emphasis on duration (how long).

PROPRIÉTÉ Formation

Subject + have/has + been + Verb-ing

Person	Affirmative	Negative	Interrogative
I / You / We / They	I have been working	I have not been working	Have I been working?
He / She / It	She has been studying	She has not been studying	Has she been studying?

Short answers : Yes, I have. / No, I haven't. Yes, she has. / No, she hasn't.

EXEMPLE Conjugation of "to learn"

Pronoun	Affirmative	Negative
I	have been learning	have not been learning
You	have been learning	have not been learning
He / She / It	has been learning	has not been learning
We	have been learning	have not been learning
They	have been learning	have not been learning

3.3 Uses of the present perfect continuous

PROPRIÉTÉ Use 1 : Action started in the past and still continuing

We use it to say how long an action has been happening. The action is not finished.

- I have been learning English for six years. (J'apprends l'anglais depuis six ans — et je continue.)
- Mballa has been working at the garage since 2019. (Mballa travaille au garage depuis 2019.)
- How long have you been studying technical drawing? (Depuis combien de temps étudies-tu le dessin technique?)

PROPRIÉTÉ Use 2 : Recent action with visible result now

The action stopped recently, but we see the evidence (result in the present).

- She is tired because she has been working all day. (Elle est fatiguée parce qu'elle a travaillé toute la journée — on voit le résultat : elle est fatiguée.)
- Your hands are dirty! Have you been repairing the engine? (Tes mains sont sales! Tu as réparé le moteur?)
- The floor is wet. It has been raining. (Le sol est mouillé. Il a plu.)

PROPRIÉTÉ Time markers : for, since, all day, lately, recently, how long

Marker	Meaning	Example
for + duration	pendant (durée)	for three years, for two hours, for a long time
since + starting point	depuis (point de départ)	since 2020, since January, since Monday, since I left school
all day / all week / all morning	toute la journée / la semaine / la matinée	I have been studying all day.
lately / recently	ces derniers temps / récemment	Have you been sleeping well lately?
How long...?	Depuis combien de temps?	How long have you been waiting?

ATTENTION Erreur fréquente : présent simple ou present continuous au lieu de present perfect continuous

- Faux : "I am learning English since 2020." (present continuous + since)
- Faux : "I learn English since 2020." (present simple + since)
- Vrai : "I have been learning English since 2020."
- Explication : En français on dit « j'apprends depuis 2020 » (présent), mais en anglais, une action qui a commencé dans le passé et qui continue utilise le present perfect continuous, pas le present continuous ni le present simple.

Example : "I have been studying technical drawing for 4 years."
(J'étudie le dessin technique depuis 4 ans.)

Present perfect continuous timeline : action starts in the past and continues up to now (or just stopped). The orange arrow shows the ongoing duration.

3.4 Future continuous

DÉFINITION Future continuous

A tense used for actions that will be in progress at a specific moment in the future.

PROPRIÉTÉ Formation

Subject + will + be + Verb-ing

Person	Affirmative	Negative	Interrogative
All persons	I will be working She will be studying	I will not be working She will not be studying	Will I be working? Will she be studying?

Short answers : Yes, I will. / No, I won't. Contracted negative : won't be working.

EXEMPLE Conjugation of "to repair"

Pronoun	Affirmative	Negative
I	will be repairing	will not be repairing (won't be repairing)
You	will be repairing	will not be repairing
He / She / It	will be repairing	will not be repairing
We	will be repairing	will not be repairing
They	will be repairing	will not be repairing

3.5 Uses of the future continuous

PROPRIÉTÉ Use 1 : Action in progress at a precise future time

The action starts before that moment and continues after it.

- This time tomorrow, I will be sitting for my interview. (Demain à cette heure-ci, je serai en train de passer mon entretien.)
- Next Monday at 9 a.m., Mballa will be repairing a truck engine. (Lundi prochain à 9 h, Mballa sera en train de réparer un moteur de camion.)
- At 5 p.m. tonight, we will be writing our reports. (Ce soir à 17 h, nous serons en train de rédiger nos rapports.)
- When you arrive, the team will be testing the prototype. (Quand tu arriveras, l'équipe sera en train de tester le prototype.)

PROPRIÉTÉ Use 2 : Polite questions about future plans

The future continuous sounds softer and more polite than will you...? or are you going

to...? because it asks about the schedule, not the intention.

- Will you be using the workshop this afternoon? (Vas-tu utiliser l'atelier cet après-midi? — poli, pas insistant.)
- Will you be attending the safety training? (Vas-tu assister à la formation sécurité?)
- Will the manager be joining us for lunch? (Le chef nous rejoindra-t-il pour le déjeuner?)
- Will you be needing the vehicle tomorrow? (Aurez-vous besoin du véhicule demain?)

PROPRIÉTÉ Use 3 : Predicting the present (less common, but useful)

To say what we think is happening now, based on routine.

- “Don’t call the workshop now; they will be having their lunch break.” (Ne téléphone pas à l’atelier maintenant; ils seront en train de déjeuner.)

Example : “At 10 a.m. tomorrow,
I will be welding the pipe.”
(Demain à 10 h, je serai en train de souder le tuyau.)

Future continuous timeline : a specific future moment (orange) with an action in progress around it (purple arrow). The action starts before and continues after that moment.

3.6 Comparison : present perfect simple vs. present perfect continuous

This is a key distinction for the Baccalauréat. Ask yourself : is it the **RESULT** (how many/much) or the **DURATION** (how long) that matters?

MÉTHODE Choosing the right tense : result vs. duration

1. Identify the verb and the time marker (for, since, how long, how many, how much).
2. Ask : “Do I want to say how many times / how much is done?” → Present perfect simple.
3. Ask : “Do I want to say how long the activity has lasted?” → Present perfect conti-

nuous.

4. Check : some verbs (stative verbs like know, like, have, be) are not used in continuous forms.

Aspect	Present perfect simple	Present perfect continuous
Formation	have/has + past participle	have/has + been + V-ing
Focus	Result / Completion (combien?)	Duration / Activity (depuis quand?)
Question	How many / How much?	How long?
Time markers	already, just, yet, ever, never	for, since, all day, lately, recently
Example 1	I have written 3 reports. (result : 3 reports done)	I have been writing reports all morning. (activity : duration)
Example 2	She has repaired the car. (car is fixed now)	She has been repairing the car for 2 hours. (she is still working / just stopped)
Stative verbs	OK : I have known him for years.	NOT used : *I have been knowing him...

ATTENTION Stative verbs : never in continuous forms

Verbs expressing states, not actions, are rarely used in any continuous tense (present continuous, present perfect continuous, future continuous, etc.).

Category	Examples
Mental states	know, understand, believe, think (opinion), remember, forget, mean
Emotions	like, love, hate, prefer, want, wish, need, desire
Possession	have (possess), own, belong, possess
Senses	see, hear, smell, taste, feel (perception)
Others	be, seem, appear, look (seem), cost, weigh, measure, contain, consist

Exception : Some verbs have both stative and dynamic meanings.

- have (possess) → stative : I have a car. have (action) → dynamic : I am having lunch / I have been having lunch. (Je déjeune.)
- think (opinion) → stative : I think it's good. think (consider) → dynamic : I am thinking about the problem.
- see (perception) → stative : I see a bird. see (meet) → dynamic : I am seeing the doctor tomorrow.

EXERCICE RÉSOLU 5 Choosing the correct tense

Complete with the present perfect simple or continuous.

1. Look! Somebody _____ (break) the window. Result visible now.
2. I _____ (read) this manual for two hours. Duration, still reading.
3. How many pages _____ you _____ (write) so far? Quantity / result.
4. My hands are greasy because I _____ (repair) the generator. Recent action, visible result.
5. We _____ (know) the director since 2018. Stative verb.
6. The students _____ (wait) for the results since June. Duration, still waiting.
7. Who _____ (eat) my sandwich? Result : sandwich gone.
8. She _____ (type) three letters this morning. Quantity completed.

SOLUTION

Solution :

1. has broken (present perfect simple — result : the window is broken)
2. have been reading (present perfect continuous — duration : for two hours)
3. have ... written (present perfect simple — how many = quantity/result)
4. have been repairing (present perfect continuous — recent activity, visible result : greasy hands)
5. have known (present perfect simple — know is a stative verb, no continuous)
6. have been waiting (present perfect continuous — duration with since, still waiting)
7. has eaten (present perfect simple — result : sandwich is gone)
8. has typed (present perfect simple — how many = quantity/result ; this morning is a finished period if it's now afternoon, but here the focus is on the number completed)

3.7 Application : your technical training and professional projects

In a technical lycée in Cameroon, you can use these tenses to talk about your studies, internships (stages), and future career.

EXAMPLE Talking about your training (Present perfect continuous)

- “I have been studying electrical engineering for three years.”
- “We have been doing our internship at SONEL since January.”
- “The teacher has been explaining the circuit diagram all morning.”
- “The apprentices have been practising welding lately.”

Questions you might hear :

- “How long have you been learning welding?”
- “Have you been working on your final project lately?”
- “What have you been doing since the last class?”

EXAMPLE Talking about future plans (Future continuous)

- “Next year at this time, I will be working as a maintenance technician.”
- “In June, we will be sitting for the Baccalauréat technique.”
- “Will you be using the CNC machine tomorrow morning?” (polite request)
- “The inspection team will be visiting the workshop next week.”
- “I will be presenting my project on Friday at 10 a.m.”

LESAVAIS-TU ? Future continuous in professional emails

In the workplace (Cameroon and internationally), the future continuous is standard for polite enquiries and confirming schedules :

- “Will you be attending the site meeting on Friday?”
- “Will the team be needing the scaffolding next week?”
- “I will be sending the technical specifications by Tuesday.”
- “Will you be available for a call at 3 p.m.?”

It sounds more professional and less direct than “Will you attend?” or “Are you going to attend?”.

EXERCICE RÉSOLU 6 Mixed practice : your profile

Write three sentences about yourself using :

1. Present perfect continuous (your studies / training)
2. Present perfect simple (a result you have achieved)
3. Future continuous (your plan for a specific future moment)

SOLUTION

Sample answers :

1. I have been studying mechanical engineering for four years.
2. I have completed my internship at the Douala port workshop.
3. This time next month, I will be presenting my final year project.

EXERCICE 8 Practice : tenses in context

Choose the correct tense (present perfect simple, present perfect continuous, or future continuous).

1. By 10 a.m. tomorrow, the technicians _____ (install) the new air-conditioning units.
2. The apprentice _____ (learn) to read blueprints since September.
3. How many cables _____ you _____ (connect) so far?
4. _____ you _____ (use) the lathe this afternoon? I need it for an hour.
5. The machine _____ (make) a strange noise all morning. We should check it.
6. We _____ (finish) the wiring. The system is ready for testing.
7. The trainee _____ (study) the safety manual for three hours. He _____ (not / finish) yet.
8. _____ the supervisor _____ (inspect) the site when we arrive tomorrow?
9. I _____ (know) the chief engineer for ten years.
10. Look at the oil on the floor! The pump _____ (leak).

CORRIGÉ Exercice n°1

1. will be installing (future continuous — action in progress at a specific future time : “By 10 a.m. tomorrow”)
2. has been learning (present perfect continuous — duration with “since September”)
3. have ... connected (present perfect simple — “How many” = quantity/result)
4. Will ... be using (future continuous — polite question about plans)
5. has been making (present perfect continuous — duration “all morning”, activity still relevant)
6. have finished (present perfect simple — completed action with present result : “system is ready”)
7. has been studying / has not finished (present perfect continuous for duration + present perfect simple for negative result)
8. Will ... be inspecting (future continuous — action in progress at a future moment “when we arrive”)
9. have known (present perfect simple — know is stative)
10. has been leaking (present perfect continuous — recent activity with visible present result : oil on floor)

À RETENIR Key points to remember

- Present perfect continuous = have/has been + V-ing. Focus on duration (for, since, how long). Action started in past, continues now or just stopped.
- Future continuous = will be + V-ing. Focus on action in progress at a specific future moment. Also used for polite questions about arrangements.
- Present perfect simple = result / quantity (how many/much). Present perfect continuous = duration / activity (how long).
- Stative verbs (know, like, have, be, understand, want, need, believe, see, hear...) → never in continuous forms (except dynamic meanings).
- Error to avoid : *I am working here since 2020 → I have been working here since 2020.
- Error to avoid : *I have been knowing him for years → I have known him for years.

4 EMBEDDED QUESTIONS, QUESTION TAGS & PHRASAL VERBS

In the previous section, we mastered the **present perfect continuous** and the **future continuous** to describe ongoing actions and future plans. Now, we move from when actions happen to how we ask about them politely and naturally in a professional context. Mastering **embedded questions** makes you sound courteous in interviews; **question tags** help you check information and build rapport; and **phrasal verbs** are the key to understanding everyday workplace English.

4.1 Embedded Statements and Questions

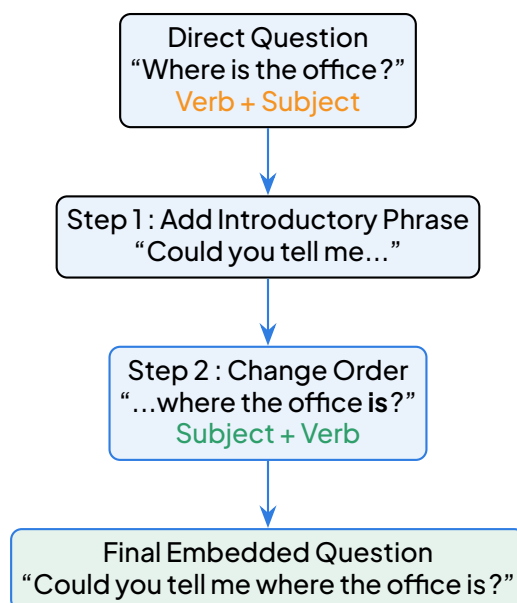

DÉFINITION Embedded Question

An **embedded question** (question incluse / question indirecte) is a question included inside another sentence or question. Unlike a direct question, it uses statement word order (Subject + Verb), not inversion. It does not use the auxiliaries do / does / did.

PROPRIÉTÉ Rule : No Auxiliary Do/Does/Did in Embedded Questions

In an embedded question, the verb follows the subject directly. We never keep the question auxiliary do, does, did.

Direct Question	Embedded Question	Structure
Where is the office?	Could you tell me where the office is?	Wh-word + Subject + Verb
What time does the interview start?	I wonder what time the interview starts.	Wh-word + Subject + Verb (add s for 3rd pers. sg.)
Did you send the CV?	Do you know if you sent the CV?	If / Whether + Subject + Verb (past tense)

Transformation tree : Direct Question → Embedded Question. Rule : (1) keep the Wh-word, (2) remove the auxiliary do/does/did and the inversion, (3) apply Subject + Verb order, (4) no question mark if the main clause is a statement.

1. Embedded Statements (Reported Speech / Thoughts)

We introduce a statement with verbs like think, believe, say, tell, know, hope. The conjunction that is optional.

EXAMPLE Embedded Statements

- Direct : "English is important." → Embedded : I think (that) English is important.
- Direct : "He was ready." → Embedded : He said (that) he was ready. (Backshifting of tense often occurs after a past reporting verb.)
- Direct : "We will finish on time." → Embedded : She hopes (that) we will finish on time.

2. Embedded Wh-Questions

Used after : ask, wonder, want to know, know, remember, forget, understand, explain, tell me, show me, Could you tell me...

EXAMPLE Embedded Wh-Questions

- Direct : "Where do you work?" → Embedded : Could you tell me where you work? (do disappears ; the main verb keeps its normal form.)

- Direct : “What are your strengths?” → Embedded : I’d like to know what your strengths are.
- Direct : “Who called?” → Embedded : Do you know who called? (Subject question : the word order does not change.)

3. Embedded Yes/No Questions

Used when there is no Wh-word. We use **if** or **whether** (whether is more formal).

EXAMPLE Embedded Yes/No Questions

- Direct : “Does the interview start at 8?” → Embedded : Do you know if the interview starts at 8?
- Direct : “Is the manager here?” → Embedded : I wonder whether the manager is here.
- Direct : “Did you receive my email?” → Embedded : Please tell me if you received my email.

ATTENTION Common Trap : Keeping the Inversion

Error : “Could you tell me where is the office?” → Correction : “Could you tell me where the office is?” Reason : After the introductory phrase, the question becomes a normal statement : Subject + Verb. The question mark at the end belongs to the main clause (Could you tell me... ?), not to the embedded part.

EXERCICE RÉSOLU 7 Transforming Direct Questions into Embedded Questions

Task : Rewrite these direct questions as embedded questions starting with the words in brackets.

1. “What are your salary expectations?” (Could you tell me...)
2. “Did you bring your certificates?” (The interviewer asked me...)
3. “Where is the nearest bus stop?” (I’d like to know...)
4. “Can you work on weekends?” (She wants to know whether...)

SOLUTION

Solution :

1. Could you tell me what your salary expectations are? (Order : Subject expectations +

Verb are.)

2. The interviewer asked me if I had brought my certificates. (Backshift after a past reporting verb : did bring → had brought ; if for a Yes/No question.)
3. I'd like to know where the nearest bus stop is. (Order : Subject bus stop + Verb is.)
4. She wants to know whether you can work on weekends. (whether for a Yes/No question ; modal can stays before the subject's verb but after the subject.)

4.2 Question Tags

DÉFINITION Question Tag

A **question tag** (question tag / petite question finale) is a short question added at the end of a statement to check information or invite agreement : You speak English, don't you?

MÉTHODE How to Form a Question Tag

Follow these 3 steps to build a correct tag :

1. Identify the Auxiliary : Find the auxiliary verb in the main sentence (be, have, do, can, will, must, should...). If there is no auxiliary (Present Simple / Past Simple affirmative), use do / does / did.
2. Invert the Polarity :
 - Positive statement → Negative Tag (aren't, don't, won't, can't).
 - Negative statement → Positive Tag (are, do, will, can).
3. Match the Subject Pronoun : Replace the subject noun with the corresponding pronoun (he, she, it, they, we, you, I).

Main Sentence	Subject	Auxiliary / Verb	Tag	Polarity
You speak English,	You	speak (do)	don't you?	+ → -
She isn't late,	She	isn't (is not)	is she?	- → +
They have finished,	They	have	haven't they?	+ → -
We won't fail,	We	won't (will not)	will we?	- → +
It works well,	It	works (does)	doesn't it?	+ → -
He didn't call,	He	didn't (did not)	did he?	- → +

Special Cases (must know for the Probatoire/Bac technique) :

À RETENIR Special Question Tags

Structure	Tag	Example
I am	aren't I?	I am late, aren't I? (Never "amn't I".)
Let's (Let us)	shall we?	Let's start, shall we?
Imperative (Positive)	will you? / won't you?	Open the door, will you?
Imperative (Negative)	will you?	Don't forget, will you?
There is / There are	isn't there? / aren't there?	There is a meeting, isn't there?
Nobody / Somebody / Everybody	they?	Nobody came, did they?
This / That is	isn't it?	This is yours, isn't it?
These / Those are	aren't they?	These are yours, aren't they?

ATTENTION Common Trap : "Isn't it?" for Everything

Error : "You are coming, isn't it?" → Correction : "You are coming, aren't you?" Reason : The tag must copy the subject and the auxiliary of the main clause. "It" is only used for impersonal structures (It is raining, isn't it?) or demonstratives (This is...). For You, use you; for He, use he.

Intonation and Meaning :

- **Falling Intonation** (↘) : the speaker is **sure** and expects agreement. "It's a nice day, isn't it?" (↘ : confirmation).
- **Rising Intonation** (↗) : the speaker is **not sure** and wants real information. "You haven't seen my pen, have you?" (↗ : real question).

EXAMPLE Question Tags in Context

- "You have prepared your CV, haven't you?" (Falling : checking preparation.)
- "You don't know the manager, do you?" (Rising : hoping for a contact.)
- "Let's practise the interview, shall we?" (Suggestion.)

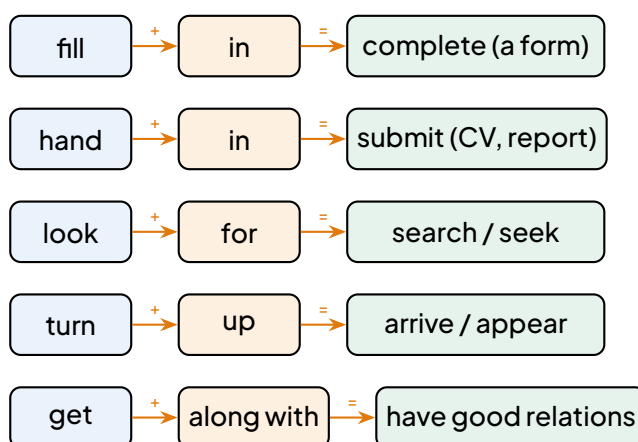

- “I’m the best candidate, aren’t I?” (Confidence, falling intonation.)

4.3 Phrasal Verbs and Prepositional Phrases at Work

Phrasal verbs (Verb + Particle/Preposition) are extremely common in spoken English and professional interactions. Using them correctly shows a high level of fluency.

DÉFINITION Phrasal Verb

A **phrasal verb** (verbe à particule) combines a verb with a particle (adverb or preposition), creating a meaning often different from the original verb. Some are separable (the object can go in the middle), others are inseparable.

Phrasal verb structure : Verb + Particle = New Meaning. Separable : fill it in or fill in the form. Inseparable : look for it (never “look it for”).

Phrasal Verb	Meaning (Français)	Example Context
carry out	effectuer, réaliser (une tâche)	The technician must carry out the maintenance check.
fill in	remplir (un formulaire)	Please fill in this application form.
hand in	remettre, déposer (dossier, CV)	You must hand in your report by Friday.
look for	chercher	We are looking for a new accountant.
put on	enfiler, mettre (vêtements, équipement de protection)	Put on your safety helmet before entering.
take off	enlever (vêtements) / décoller (avion)	You can take off your jacket in the office.
turn up	arriver, se présenter	He turned up late for the interview.
work out	résoudre, calculer / s'entraîner	We need to work out the total cost.
get along with	bien s'entendre avec	I get along well with my colleagues.
look forward to	avoir hâte de (+-ing)	I look forward to hearing from you.

ATTENTION Trap : “look forward to” + -ing

After look forward to, the next verb takes the -ing form, because to here is a preposition, not an infinitive marker : “I look forward to hearing from you” (never “to hear”).

Prepositional Phrases (Fixed Expressions) :

Phrase	Meaning (Français)	Example
in charge of	responsable de	Who is in charge of the IT department?
on time	à l'heure, ponctuel(le)	The meeting started on time .
at work	au travail	She is at work until 5 p.m.
for a living	pour gagner sa vie	What do you do for a living ?
by heart	par cœur	Know the safety rules by heart .
in the long run	à long terme	Training pays off in the long run .

À RETENIR Worked Example : First Day at a Plant in Edéa

Context : Junior technician Paul starts work at a factory in Edéa (Littoral Region, Cameroon).

“This morning I turned up early. I had to put on my safety boots and fill in a security form at the gate. My supervisor, Mr. Ngono, is in charge of the maintenance unit. He asked me to look for the technical manuals and to hand in my CV at the

HR office. Then I had to work out the machine settings. I hope I will get along with the team. I am looking forward to learning this trade for a living. In the long run, I want to become a team leader.”

Count : 10 phrasal verbs and prepositional phrases used naturally in a short professional narrative.

LES VAIS-TU ? Phrasal Verbs in Interviews

Phrasal verbs dominate spoken, everyday English. In a job interview, saying “I carried out a project” often sounds more natural than a very formal equivalent. Recruiters listen for them. Tip : learn phrasal verbs by topic (e.g., “interview verbs” : turn up, hand in, fill in, look forward to).

EXERCICE RÉSOLU 8 Phrasal Verbs Gap Fill

Complete with the correct phrasal verb (right tense) or prepositional phrase : carry out, fill in, hand in, look for, put on, turn up, work out, get along with, on time, in charge of.

1. The manager is _____ the recruitment process.
2. Please _____ this form in capital letters.
3. If you _____ late for the interview, you lose points.
4. We need to _____ the total budget for the year.
5. She _____ her protective goggles before welding.
6. I _____ my colleagues very well ; we are a great team.
7. The project was _____ successfully last month.
8. You must _____ your report by 4 p.m. today.

SOLUTION

Answers :

1. in charge of (prepositional phrase : responsible for)
2. fill in (separable : fill it in)
3. turn up (arrive)
4. work out (calculate)
5. put on (wore protective equipment ; past tense)
6. get along with (good relationship)

7. carried out (passive, past tense : executed)
8. hand in (submit)

4.4 Practice Exercises

EXERCICE 9 Embedded Questions Transformation

Rewrite the direct questions as polite embedded questions.

1. "Where is the personnel department?" → Could you tell me _____?
2. "Does the company provide housing?" → I'd like to know _____.
3. "What qualifications do you need?" → Can you explain _____?
4. "Did the previous employee leave?" → Do you know _____?
5. "How much does it pay?" → I wonder _____.

EXERCICE 10 Question Tags Completion

Add the correct question tag.

1. You have finished the report, _____?
2. She can't drive a forklift, _____?
3. Let's take a break, _____?
4. I am invited to the meeting, _____?
5. There aren't any vacancies, _____?
6. Nobody answered the phone, _____?
7. Don't be late tomorrow, _____?
8. This is your first application, _____?

EXERCICE 11 Phrasal Verbs & Prepositional Phrases in Context

Choose the best option (A, B, or C) to complete the sentences.

1. The safety officer is _____ checking the fire extinguishers.
A) in charge of [B)] on time [C)] by heart

2. We must _____ the emergency procedures _____.
A) learn / by heart [B)] look / for [C)] fill / in
3. The interview is at 9 :00. Please be _____.
A) at work [B)] on time [C)] for a living
4. I _____ meeting the new director.
A) look forward to [B)] get along with [C)] turn up
5. He _____ a solution to the technical problem.
A) worked out [B)] carried out [C)] handed in

CORRIGÉ Exercice 1 : Embedded Questions

1. Could you tell me where the personnel department is? (Subject + Verb order.)
2. I'd like to know if/whether the company provides housing. (If/whether + Subject + Verb; provides takes s.)
3. Can you explain what qualifications you need? (Subject + Verb order, no do.)
4. Do you know if/whether the previous employee left? (If/whether + past tense.)
5. I wonder how much it pays. (Subject + Verb order, no does.)

CORRIGÉ Exercice 2 : Question Tags

1. haven't you? (Positive statement with have → negative tag.)
2. can she? (Negative can't → positive tag.)
3. shall we? (Let's → shall we.)
4. aren't I? (I am → aren't I.)
5. are there? (Negative aren't → positive tag; subject there.)
6. did they? (Nobody is negative in meaning → positive tag; pronoun they.)
7. will you? (Negative imperative → will you.)
8. isn't it? (This is → isn't it.)

CORRIGÉ Exercice 3 : Phrasal Verbs & Phrases

1. A (in charge of = responsable de.)
2. A (learn by heart = apprendre par cœur.)
3. B (on time = à l'heure.)
4. A (look forward to + V-ing = avoir hâte de.)
5. A (work out = résoudre, trouver une solution.)

5 ANTICIPATING SECOND-LANGUAGE NEEDS AT WORK (READING & VOCABULARY)

5.1 Transition from the previous section

In the previous section, we studied **embedded questions**, **question tags** and **phrasal verbs**. These tools help us ask for information politely (Could you tell me what time the interview starts?), check understanding (You speak English, don't you?) and express actions naturally (fill in a form, look up a word). Now we apply these skills to a real professional situation : identifying **why you need English in your future job** and **how to improve it**.

À RETENIR Why this section matters

As a technical student in Cameroon, you are preparing for a bilingual labour market. English is not just a school subject — it is a **working tool** for reading manuals, writing reports, serving customers and following training. This section helps you analyse your own language needs and build a personal improvement plan.

5.2 Why English is indispensable at work in Cameroon

Cameroon is officially **bilingual** (French and English) by **Article 1(3) of the Constitution**. This unique status creates daily professional situations where English is required :

- **Geography** : Cameroon borders Nigeria and is close to Ghana — both English-speaking economic partners.
- **International companies** : Many firms (oil, telecom, banking, logistics) use English as their corporate language.
- **Technical documentation** : Machine manuals, safety datasheets, software interfaces, coding languages — most are in English.

- **Regional integration** : CEMAC, ECCAS, African Continental Free Trade Area (AfCFTA) — English is a working language.

LESAVAIS-TU ? Le bilinguisme constitutionnel

L'article 1(3) de la Constitution de la République du Cameroun dispose : « Les langues officielles de la République du Cameroun sont l'anglais et le français, qui ont le même statut. » Cet atout juridique fait du Cameroun l'un des rares pays africains où le bilinguisme officiel est une norme constitutionnelle, et non seulement une pratique administrative. Sur le marché du travail, un technicien qui maîtrise les deux langues officielles a un avantage concurrentiel majeur.

5.3 Key vocabulary : language needs at work

DÉFINITION Language needs

Language needs (besoins linguistiques) are the specific language skills a person requires to perform tasks in a given professional situation. They vary according to the job, the sector and the level of responsibility.

English term	Meaning / French gloss	Example in context
language needs	besoins linguistiques	My language needs include reading technical manuals.
communication skills	compétences en communication	Good communication skills are essential for customer service.
technical terms	termes techniques	The manual is full of technical terms like 'torque' and 'voltage'.
manual	notice, manuel d'utilisation	Please read the manual before operating the machine.
report writing	rédaction de rapports	Report writing is a key skill for supervisors.
customer service	service client	She works in customer service at a telecom company.
training	formation	The company offers training in safety procedures.
proficiency	maîtrise, compétence avérée	The job requires proficiency in English (level B2).
fluent	couramment (parler couramment)	He is fluent in English and French.
bilingual	bilingue (parler deux langues)	Cameroon is a bilingual country.

ATTENTION **Fluent vs. Bilingual — piège fréquent**

Fluent signifie « parler une langue couramment, avec aisance ». **Bilingual** signifie « utiliser deux langues dans la vie quotidienne ou professionnelle ». On peut être bilingue sans être perfectly fluent dans les deux langues (ex. : un Camerounais qui parle français couramment et anglais à un niveau intermédiaire). Inversement, on peut être fluent en anglais sans être bilingue (ex. : un Français qui parle anglais couramment mais ne pratique pas le français au travail). Au Cameroun, l'objectif professionnel est souvent les deux : bilingual and fluent.

5.4 Reading strategies : skimming, scanning, deducing meaning

Before reading the text, let's recall three essential strategies for efficient reading in a professional context.

MÉTHODE **Lire efficacement un texte professionnel**

1. Skimming (lecture rapide pour l'idée générale) : Lisez le titre, les sous-titres, la première et la dernière phrase de chaque paragraphe. Ne vous arrêtez pas sur les mots inconnus. Objectif : De quoi parle le texte ?
2. Scanning (recherche d'informations précises) : Cherchez des mots-clés (noms, chiffres, dates, termes techniques) pour répondre à une question précise. Objectif : Trouver X information.
3. Relecture pour le vocabulaire (deducing meaning from context) : Relisez les phrases contenant des mots nouveaux. Utilisez le contexte (mots voisins, connecteurs logiques, exemples) pour deviner le sens avant de consulter le dictionnaire.

5.5 Reading text : A technician's need for English at the Douala seaport

Text : A technician's need for English at the Douala seaport

Paragraph 1 : Douala Seaport is the largest port in Central Africa. It handles more than 90% of Cameroon's foreign trade. Every day, hundreds of containers arrive from Europe, Asia and the Americas. The port operates 24 hours a day, seven days a week. Technicians like **Mr. Nguema**, a 32-year-old electromechanical technician, are essential to keep the cranes, conveyor belts and power generators running.

Paragraph 2 : Mr. Nguema's **language needs** are varied. First, he must **read technical manuals** in English. The port's main cranes are manufactured in Germany and the USA. Their maintenance manuals, error codes and safety instructions are written in English. Last month, a crane stopped working because of a hydraulic fault. Mr. Nguema had to consult the English manual to identify the error code E-407 and follow the troubleshooting steps. Without English, the repair would have taken days instead of hours.

Paragraph 3 : Second, Mr. Nguema often **communicates with English-speaking clients and colleagues**. Shipping agents from Nigeria and Ghana come to the port regularly. They need information about container handling, storage conditions and loading schedules. Mr. Nguema uses English to explain technical constraints, give instructions to dockworkers and answer safety questions. He says : « When a Nigerian agent asks about the maximum weight for a 40-foot container, I must answer clearly and quickly. Mistakes can cause accidents. »

Paragraph 4 : Third, Mr. Nguema writes **daily maintenance reports** and **incident reports** in English. The port's management software is in English. All digital logs, work orders and safety checklists are in English. A poorly written report can lead to misunderstandings, delayed repairs or legal problems. Mr. Nguema spends about 45 minutes each day writing reports.

Paragraph 5 : Finally, Mr. Nguema follows **online training courses** to upgrade his skills. Most specialised courses on PLC programming, variable frequency drives and industrial safety are available only in English. He recently completed a 30-hour course on Siemens S7-1500 PLC programming entirely in English. He says : « English is not a subject for me. It is the key to my professional development. »

Paragraph 6 : Mr. Nguema's experience shows that for a technician in Cameroon, English is a **working tool**, not just an exam subject. His **proficiency** in English directly affects his **efficiency**, his **safety** record and his **promotion** prospects. Identifying your own **language needs** is the first step to building a realistic improvement plan.

Authentic-style professional text illustrating language needs of a technician at Douala Seaport.

5.6 Comprehension check : solved questionnaire

EXERCICE RÉSOLU 9 Questionnaire de lecture — 5 questions

Text-based questions. Answer in complete sentences.

Question 1 (Skimming — Main idea) : What is the main purpose of this text ?

SOLUTION

Solution :

1. Reading technical manuals (maintenance, error codes, safety instructions).
2. Communicating orally with English-speaking clients and colleagues (shipping agents, dockworkers).
3. Writing reports (daily maintenance logs, incident reports, digital checklists).
4. Following online training courses (PLC programming, industrial safety, specialised technical courses).

5.7 Identifying your own language needs

Every technical field has specific English requirements. Use the table below to start your personal analysis.

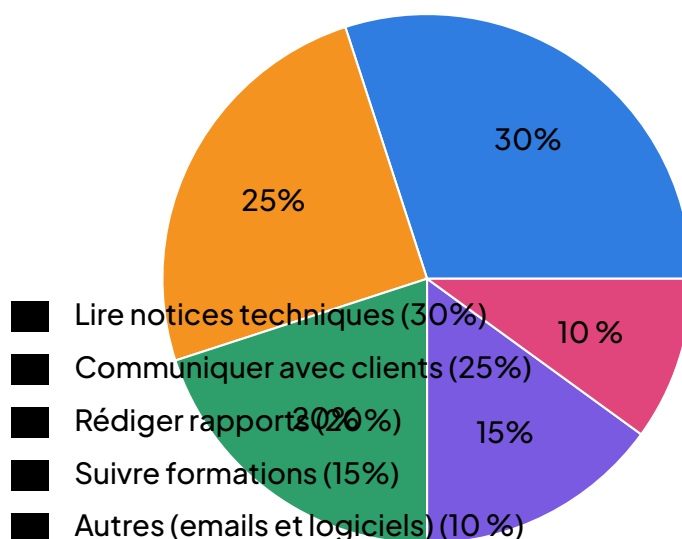

Technical field (Filière)	Specific English needs (Besoins spécifiques en anglais)
Génie civil / BTP	Reading annotated plans and structural notes in English; understanding international standards (Eurocodes, ASTM); writing site reports; communicating with foreign engineers.
Électrotechnique / Maintenance industrielle	Reading electrical schematics with English annotations; PLC manuals (Siemens, Allen-Bradley, Schneider); safety datasheets (Lockout/Tagout); error codes on variable frequency drives.
Informatique / Réseaux	Programming languages (keywords, documentation, Stack Overflow); Cisco/Network configuration guides; cybersecurity alerts; API documentation; writing technical specs.
Comptabilité / Gestion	Reading IFRS standards in English; writing financial reports for international groups; using English ERP software (SAP, Sage); communicating with foreign auditors.
Hôtellerie / Tourisme	Welcoming English-speaking guests; handling reservations and complaints; reading international hygiene/safety standards (HACCP); writing menus and brochures.
Mécanique / Usinage	Reading CNC machine manuals (Fanuc, Heidenhain); G-code comments; tooling catalogues (Sandvik, Kennametal); writing inspection reports.
Bois / Menuiserie industrielle	Reading machine manuals (Weinig, Homag); understanding wood grading standards (NHLA); writing production sheets; communicating with export clients.
Agroalimentaire	Reading HACCP/ISO 22000 documentation; labelling regulations (Codex Alimentarius); writing quality control reports; export documentation.

EXEMPLE Analyse personnelle — Exemple : Élève en Électrotechnique

Mon besoin prioritaire : Lire les manuels de variateurs de fréquence (VFD) et les codes d'erreur des automates Siemens. Preuve : En stage, j'ai bloqué 2 heures sur un code F0001 parce que le manuel n'était qu'en anglais. Objectif SMART : D'ici 3 mois, comprendre 80% des codes d'erreur courants sans dictionnaire. Actions : 1) Apprendre 10 termes techniques/semaine (liste du manuel). 2) Regarder 1 tutoriel YouTube en anglais/semaine (PLC programming). 3) Rejoindre le club d'anglais technique du lycée.

5.8 Distribution of a technician's English needs — Pie chart

The following chart summarises the typical distribution of English language needs for a technician working in an industrial or port environment in Cameroon, based on surveys of professional tasks.

Répartition typique des besoins en anglais d'un technicien camerounais (enquête terrain 2023, n=120 techniciens portuaires et industriels). Source : adaptation MINESEC/ONBuch+.

5.9 Building a personal action plan : SMART goals

Once you have identified your needs, turn them into a concrete plan using the **SMART** framework.

DÉFINITION SMART goals

A **SMART goal** is :

- Specific (précis) — What exactly will you improve ?

- Measurable (mesurable) — How will you track progress?
- Achievable (atteignable) — Is it realistic with your time?
- Relevant (pertinent) — Does it match your professional need?
- Time-bound (daté) — By when?

MÉTHODE Créer votre plan d'action personnel en 4 étapes

1. Listez vos 3 besoins prioritaires (ex. : lire manuels VFD, écrire rapports d'intervention, comprendre formations PLC).
2. Transformez chaque besoin en objectif SMART (voir exemple ci-dessous).
3. Choisissez 2 ressources par objectif (cours lycée, appli mobile, radio, club anglais, YouTube technique, tandem avec un camarade anglophone).
4. Fixez un rendez-vous mensuel avec vous-même pour évaluer et ajuster.

EXEMPLE Plan d'action SMART — Exemple complet

Besoin identifié	Objectif SMART	Ressources	Échéance
Lire manuels VFD	Comprendre 80% des codes d'erreur courants sans dictionnaire d'ici le 30 avril.	1) Liste vocabulaire manuel Schneider (10 mots/sem.) 2) Chaîne YouTube Schneider Electric Tutorials (1 vidéo/sem.)	30 avril
Rédiger rapports	Écrire un rapport d'intervention structuré (50 mots) sans fautes majeures en 20 min.	1) Modèles de rapports du lycée 2) Appli Grammarly (version gratuite) 3) Relecture par prof/coéquipier	15 mai
Suivre formation PLC	Terminer le module 1 du cours Siemens S7-1200 (anglais) sur Siemens Learning Advantage.	1) Compte gratuit Siemens 2) Groupe d'étude WhatsApp (3 camarades) 3) Dico technique Oxford Picture Dictionary	30 juin

5.10 Available resources in Cameroon

- **Au lycée** : Cours d'anglais technique, club d'anglais, jumelage avec des élèves de la section anglophone, bibliothèque (manuels techniques en anglais).
- **Médias** : CRTV Radio (émissions en anglais), BBC Learning English (site/app), VOA Learning English.
- **Applications gratuites** : Duolingo (base), Busuu (conversation), Quizlet (vocabulaire technique — créez vos propres listes), Grammarly (écriture).
- **Plateformes techniques** : Siemens Learning Advantage (gratuit), Schneider Electric University, Cisco NetAcad (anglais technique), Coursera/edX (audit gratuit).
- **Pratique réelle** : Stages, visites d'entreprises, correspondance avec des étudiants techniques nigériens/ghanéens (WhatsApp/email), traduction de notices de machines du laboratoire.

À RETENIR

Checklist de fin de section

- ☐ Je peux expliquer pourquoi l'anglais est indispensable dans mon futur métier au Ca-

meroun.

- ☐ Je connais le vocabulaire clé : language needs, proficiency, fluent, bilingual, manual, report writing, troubleshooting.
- ☐ J'applique skimming, scanning, déduction du sens à un texte professionnel.
- ☐ J'ai identifié mes 3 besoins prioritaires en anglais pour ma filière.
- ☐ J'ai rédigé au moins 1 objectif SMART avec ressources et échéance.

5.11 Practice exercises

EXERCICE 12 Vocabulary consolidation

Complete the sentences with the correct word from the box. Two words are extra.

proficiency manual troubleshooting fluent
bilingual report writing technical terms customer service

1. The maintenance _____ for the crane is 300 pages long and only in English.
2. She works in _____ at a hotel; she answers guests' questions in English and French.
3. His English _____ is certified at level B2 by the British Council.
4. The error code F004 means « overvoltage » — check the _____ guide page 12.
5. Cameroon is officially a _____ country : French and English have equal status.

EXERCICE 13 Reading strategy identification

For each situation, choose the best strategy : Skimming, Scanning or Deducing from context.

1. You need to find the maximum load of a 40-foot container in a 50-page manual.
2. You want to know if a 10-page article on PLC safety is relevant for your exam.
3. You meet the word lockout in a safety text : « Apply lockout/tagout before maintenance. Isolate energy sources. » You guess the meaning.
4. You look for the date of the next training session in an email from your supervisor.
5. You read the first and last paragraph of a report to decide whether to read it all.

EXERCICE 14 Personal needs analysis — Written production

Write a short paragraph (80–100 words) describing :

- Your technical field (specialty).
- Your top 2 English language needs (be specific : reading hydraulic schematics, writing incident reports, speaking with clients...).
- One SMART goal for the next 6 weeks.
- Two resources you will use.

Use the vocabulary from this section. Exchange with a partner and give feedback.

CORRIGÉ Exercice 1 — Vocabulary consolidation

1. manual (notice/manuel)
2. customer service (service client)
3. proficiency (maîtrise certifiée)
4. troubleshooting (dépannage/diagnostic)
5. bilingual (bilingue — pays à deux langues officielles)

CORRIGÉ Exercice 2 — Reading strategy identification

1. Scanning (recherche d'une information précise : charge max).
2. Skimming (idée générale pour décider de lire ou non).
3. Deducing from context (indices : isolate energy sources, before maintenance → lockout = consignation/verrouillage).
4. Scanning (recherche d'une date précise).
5. Skimming (lecture rapide des parties stratégiques pour l'idée générale).

5.12 Link to the writing section

You now have :

- A clear understanding of your professional **language needs**.
- Vocabulary to describe them (proficiency, technical terms, manual, report writing, troubleshooting).

- A personal SMART action plan.

The next step (Writing section) will guide you to **write a structured composition** on « Anticipating my second-language needs at work » — using the ideas, vocabulary and plan you have just built. You will organise your text in paragraphs, use linking words, and demonstrate your ability to write professionally about your own career preparation.

6 WRITING : COMPOSITION ON SECOND-LANGUAGE NEEDS AT WORK

6.1 Transition from reading to writing

In the previous section, we read texts about anticipating second-language needs at work and learnt vocabulary such as **technical documentation** (documentation technique), **workplace communication** (communication en milieu professionnel), **career advancement** (avancement de carrière) and **multilingual environment** (environnement multilingue). Now we move from **reception** (reading, listening) to **production** (writing). Writing a composition allows you to organise your ideas, reuse the grammar and vocabulary of the unit, and prepare for the **Baccalauréat technique** writing paper.

MÉTHODE How to write a composition for the Bac

Step 1 – Read the topic twice. Underline key words : importance, English, future career, technician. Identify the required length (200–250 words).

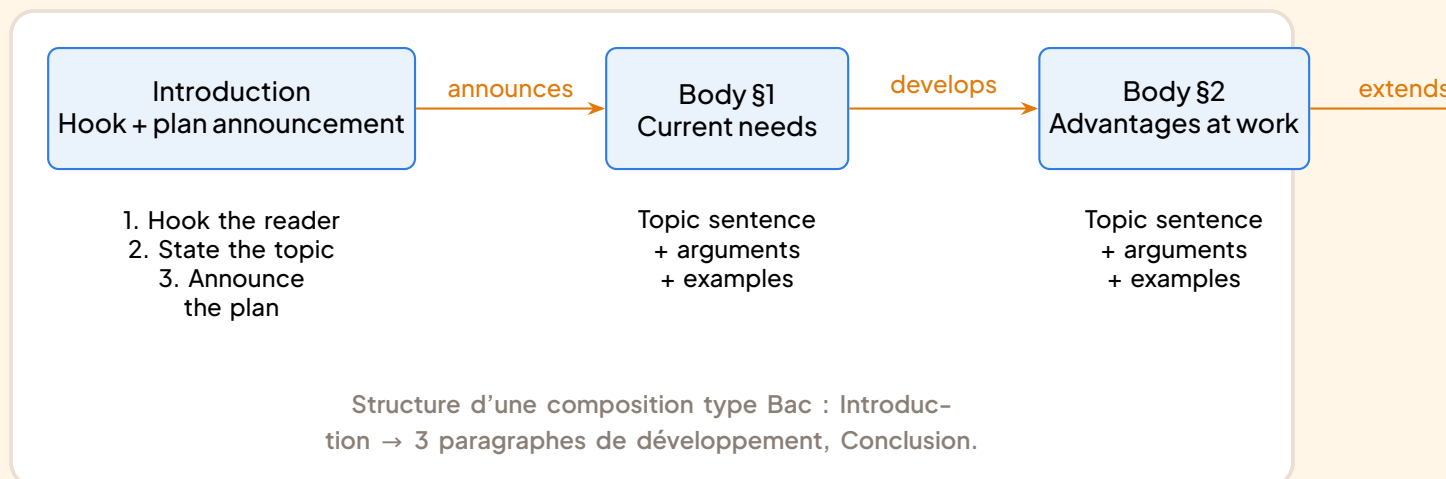

Step 2 – Make a rough plan (5 min). Write 3–4 main ideas, one per paragraph. Choose logical connectors.

Step 3 – Write the draft (20 min). Follow the structure : Introduction → Body (2–3 paragraphs) → Conclusion. Use the tenses and phrasal verbs studied.

Step 4 – Proofread (5 min). Check verbs (tense, subject-verb agreement), spelling, punctuation, word count. Ensure each sentence expresses one clear idea.

6.2 Structure of a composition

A good composition has three clearly separated parts. The diagram below summarises the role of each part.

7 ACTIVITÉ D'INTÉGRATION

7.1 Objectifs de l'activité

Cette activité d'intégration vise à mobiliser l'ensemble des savoirs et savoir-faire de l'unité Family and Social Life dans une tâche unique, complexe et authentique : la simulation d'un processus de recrutement réel au Cameroun. À l'issue de cette activité, l'élève doit être capable de :

- **Comprendre** une offre d'emploi technique (lecture sélective / scanning) et en extraire le vocabulaire clé (**job description**, **requirements**, **soft skills**, **technical skills**).
- **Produire** un CV structuré et une présentation orale fluide intégrant le **present perfect continuous** pour décrire un parcours de formation en cours (e.g. I have been studying electrical engineering for three years) et le vocabulaire des **recreational activities** pour valoriser les **soft skills**.
- **Interagir** en situation d'entretien : formuler et répondre à des questions directes, des **embedded questions** (Could you tell me why...?), utiliser des **question tags** pour vérifier l'information (You have a BTS, don't you?) et employer des **phrasal verbs** naturels (look forward to, get along with, carry out).
- **Rédiger** un paragraphe cohérent (My plan to improve my English for this job) en mobilisant le **future continuous** pour projeter des actions en cours dans le futur (I will be attending evening classes...).
- **Évaluer** ses pairs via une grille critériée (grammaire, vocabulaire, aisance, contenu) et identifier ses propres axes de remédiation.

7.2 Situation

Contexte : L'entreprise fictive **CamTech Services Ltd**, située à **Douala-Bonanjo** (immeuble Sawa, 3^e étage), est une société de maintenance industrielle et de solutions énergétiques (solaire, groupes électrogènes, automatisme). Elle recrute **deux (02) Techniciens Stagiaires** (spécialités : Électrotechnique, Maintenance des Systèmes Automatisés ou Génie Mécanique) pour un stage professionnalisant de 6 mois, renouvelable, avec perspective d'embauche (CDI). L'entreprise travaille avec des partenaires internationaux (Chine, France, Inde) ; la maîtrise de l'anglais technique est un critère éliminatoire.

Offre d'emploi (extrait affiché au tableau / distribué) :

À RETENIR

Vacancy Announcement – CamTech Services Ltd – Douala

Position : 2 Trainee Technicians (Electrical / Mechanical / Automation)

Contract : 6-month Internship (Stipend : 80 000 FCFA/month + Transport allowance)

Start Date : January 15th, 2027

Key Responsibilities :

- Carry out preventive and corrective maintenance on industrial equipment.

- Assist senior engineers in solar panel installation and generator servicing.
- Read and interpret technical schematics and manuals (mostly in English).
- Fill in daily intervention reports in English.
- Comply strictly with HSE (Health, Safety, Environment) standards.

Profile Required :

- BTS / HND / DUT in Electrical Engineering, Mechanical Engineering or Automation.
- English : Minimum B1 level (CEFR). Ability to understand technical documents and communicate orally.
- Soft skills : Team spirit, adaptability, punctuality, problem-solving mindset.
- Hobbies/Interests : Candidates practising team sports, DIY (bricolage), coding or technical reading are preferred.

Application : Send CV + Cover Letter in English to hr@camtech-cm.com before December 20th.

Selection Process : Written test (Technical English) + Oral Interview (Panel of 3).

Organisation de la classe : La classe est divisée en **groupes de 4 élèves**. Dans chaque groupe : **2 Candidats** (A et B) et **2 Membres du Jury** (J1 : Responsable RH, J2 : Chef de Service Technique). Les rôles s'inversent au second tour pour que chaque élève passe l'entretien. Le professeur circule, observe, note et remplit la grille d'évaluation officielle.

7.3 Consignes

Les consignes sont données en anglais aux élèves. Les mots clés sont glossés en français.

1. **Reading & Scanning (10 min)** : Individually, read the vacancy announcement above. Highlight or list **10 key words/expressions** (technical vocabulary + expected skills). Glossaire : to highlight = surligner ; key requirements = exigences clés ; schematics = schémas techniques.
2. **Preparation – CV & Oral Pitch (20 min)** : Candidates : write a **simplified CV** (half a page) on paper. Prepare a **2-minute oral presentation** ("Tell us about yourself"). **Compulsory grammar constraints** :
 - Use the **Present Perfect Continuous** at least twice for your ongoing studies/projects (I have been learning... ; I have been working on...).
 - Mention **one recreational activity** connected with the job (team sport, DIY, coding club) and explain what it brings you (teamwork, patience, precision).

Jury members : prepare **6 questions** (3 per candidate) : 2 direct questions, 2 **embedded questions**, 2 questions with **question tags**. Include at least **3 different phrasal verbs** in your questions (deal with, find out, look into, get along with, carry out).

3. **Roleplay – Job Interview (15 min per candidate)** : Real-life simulation. The panel welcomes the candidate. Procedure :

- (a) Welcome & ice-breaker (question tag : You are [Name], aren't you?).
 - (b) Candidate's presentation (2 min, without notes if possible).
 - (c) Technical & behavioural questions (Jury) – Answers (Candidate). The candidate must use at least **2 phrasal verbs** in his/her answers.
 - (d) Candidate's questions to the panel (one embedded question compulsory : Could you tell me what a typical day looks like?).
 - (e) Conclusion.
4. **Writing Task – Language Development Plan (15 min) : All students** (candidates and jury) individually write a paragraph of **80–100 words** : “My Plan to Improve My English for This Job”. **Constraint** : Use the **Future Continuous** at least **3 times** to describe actions in progress in the near future (Next month, I will be attending... ; In February, I will be reading...). Use the vocabulary of anticipating second-language needs (**technical vocabulary, report writing, oral communication, online courses**).
5. **Evaluation & Remediation (15 min)** : The Jury fills in the **evaluation grid** (out of 20) for each candidate. The teacher collects the grids and the written productions. **Collective remediation** session : on the board, correction of the 5 most frequent errors observed (grammar, pronunciation, lexical awkwardness).

7.4 Ressources à mobiliser

Grammatical Tool	Formula / Key Rule (Terminale Tech Reminder)
Present Perfect Continuous	Have/Has + been + V-ing . Action started in the past, still in progress, or just stopped with a visible result. Ex : I have been studying electricity for 3 years. / My hands are dirty; I have been repairing the generator.
Future Continuous	Will + be + V-ing . Action that will be in progress at a precise moment in the future; a plan or arrangement. Ex : At 8 pm to-night, I will be revising my technical vocabulary. / Next semester, I will be taking an English course.
Embedded Questions	Introductory phrase + question word + subject + verb (affirmative order, NO auxiliary do/does/did) . Direct : Why did you choose this field? → Embedded : Could you tell me why you chose this field? Direct : Does the company provide training? → Embedded : I'd like to know if/whether the company provides training.
Question Tags	Affirmative statement → negative tag / negative statement → affirmative tag . Verb tense and subject pronoun must match. Ex : You have a BTS, don't you? / You aren't leaving, are you? / He can speak English, can't he?
Phrasal Verbs (Selection)	Carry out : effectuer, réaliser (une tâche, une maintenance). Deal with : gérer, traiter (un problème, un client). Find out : découvrir, s'informer. Look into : examiner, enquêter sur. Get along with : s'entendre bien avec (collègues). Look forward to + V-ing : avoir hâte de. Set up : installer, configurer. Run out of : manquer de (pièces, temps).
Interview Vocabulary	Strengths / Weaknesses (forces/faiblesses), Background (parcours), Challenge (défi), Deadline (échéance), Shift work (travail par roulement), Internship (stage), Stipend (indemnité de stage).
Leisure Vocabulary	Team sports (football, basketball), DIY / Do It Yourself (bricolage), coding/programming , reading technical magazines , volunteering (bénévolat).

7.5 Démarche et corrigé commenté

EXERCICE RÉSOLU 10

Simulation complète – Candidat modèle : Ngono Jean-Pierre (Électrotechnique) Étape 1 : Reading & Scanning – Vocabulaire clé extrait de l'offre

- **Preventive / corrective maintenance** (maintenance préventive / corrective)
- **Technical schematics** (schémas techniques)

- **HSE standards** (normes Hygiène Sécurité Environnement)
- **Intervention reports** (rapports d'intervention)
- **Team spirit / teamwork** (esprit d'équipe)
- **Problem-solving mindset** (esprit de résolution de problèmes)
- **DIY (Do It Yourself)** (bricolage)
- **Stipend** (indemnité de stage)
- **Manuals** (manuels techniques)
- **Deadline** (date limite : December 20th)

Commentaire : L'élève prouve sa capacité de scanning (lecture rapide ciblée). Ces mots seront réinvestis à l'oral et à l'écrit.

Étape 2 : CV simplifié – modèle

Section	Content (Model)
Name	Ngono Jean-Pierre
Contact	+237 6XXXXXX XX jp.ngono@email.com Douala, Bonabéri
Diploma	BTS Electrotechnics (Government Technical High School Douala) – final year, defence in June 2027
Technical Skills	Maintenance of asynchronous motors, cabinet wiring, reading AutoCAD drawings, basics of PLC programming (Siemens LOGO!), electrical safety
English Level	B1 (CEFR) – 2-month practical internship at ENEO (English-speaking customer service)
Recreational Activities	Captain of the school basketball team (3 years) – leadership, discipline, stress management. DIY electronics – repairing old radio sets, assembling Arduino kits (self-taught).
Soft Skills	Punctuality, adaptability, teamwork, problem-solving

Script oral (modèle) – présentation de 2 minutes :

“Good morning. My name is Jean-Pierre Ngono. I am 20 years old and I come from Douala. I have been studying Electrotechnics at the Technical High School of Douala for three years now. Currently, I have been working on my final project : the design of an automatic transfer switch for a solar backup system. This project has allowed me to improve my skills in reading technical schematics and PLC programming.

Besides my studies, I am the captain of the school basketball team. I have been playing basketball for five years. This recreational activity taught me teamwork, discipline and how to handle pressure during tight matches – skills I know are essential for shift work and meeting deadlines at CamTech. I also enjoy DIY electronics ; recently I repaired an old amplifier for a friend.

I am very motivated to join CamTech Services because I want to carry out real industrial maintenance and deal with English technical documentation daily. I look forward to learning from your senior engineers. Thank you.”

Analyse grammaticale :

- **Present Perfect Continuous** : I have been studying... for three years (parcours en cours) ; I have been working on my final project (action récente en cours avec résultat visible).
- **Recreational activity** : I have been playing basketball for five years (durée).
- **Phrasal verbs** : carry out, deal with, look forward to.
- Vocabulaire technique : schematics, PLC, automatic transfer switch, shift work, deadlines.

Étape 3 : Roleplay – extrait d’entretien (Jury J1 & J2 vs Candidat)

Speaker	Exchange (grammatical annotations)
J1 (HR)	Good morning, Jean-Pierre. You are Mr. Ngono, aren't you? (Question tag – identity check). Please, have a seat.
Candidate	Good morning. Yes, I am. Thank you.
J2 (Tech)	We read your CV. Could you tell us why you chose electro-technics? (Embedded question – Wh- question, subject-verb order).
Candidate	I chose this field because I have always been curious about how energy is distributed. Since childhood, I liked to find out how appliances worked (phrasal verb). At school, I have been focusing on power systems (Present Perfect Continuous).
J1	The job involves reading manuals in English. Do you think you can handle technical documentation? (Direct question).
Candidate	Yes, I can. During my internship at ENEO, I had to fill in intervention reports in English. I have been improving my technical vocabulary by reading engineering articles online (Present Perfect Continuous). Next month, I will be attending a specialised "Technical English" evening course (Future Continuous – anticipation).
J2	We often work in teams on site. You get along well with your classmates, don't you? (Question tag + phrasal verb get along with).
Candidate	Yes, I do. As team captain, I have to deal with different personalities (phrasal verb). We usually sort out disagreements quickly (phrasal verb).
J1	What about safety? I'd like to know if you are familiar with HSE standards. (Embedded question – Yes/No → if/whether).
Candidate	I have my electrical safety certificate. I have been following strict safety protocols in the workshop for two years (Present Perfect Continuous). Safety is not negotiable.
Candidate (final question)	Thank you. Could you tell me what a typical day looks like for a trainee here? (Embedded question – compulsory instruction).
J2	You will shadow a senior technician. Mornings : preventive maintenance. Afternoons : corrective interventions or reporting. You will look into fault reports (phrasal verb).

Étape 4 : Writing Task – production écrite attendue (modèle, environ 95 mots)

“My Plan to Improve My English for This Job

Getting the trainee position at CamTech Services requires a solid command of Technical English. Therefore, I have designed a precise schedule. Starting next Monday, I will be attending a Business English course at a language centre in Douala every Tuesday and Thursday evening. Throughout the next three months, I will be reading one technical article from an electrical engineering website daily to build my specialised vocabulary. During my commute, I will be listening to engineering podcasts to improve my oral comprehension. Additionally, I will be writing a weekly summary of my practical work in English to practise report writing. I am confident this routine will bridge the gap before the final interview.”

Analyse du corrigé :

- **Future Continuous** (x4) : will be attending, will be reading, will be listening, will be writing – actions en cours dans un futur planifié.
- Vocabulaire second-language needs : Technical English, specialised vocabulary, oral comprehension, report writing, bridge the gap.
- Structure : objectif → actions planifiées (Future Continuous) → résultat attendu.
- Connecteurs logiques : Therefore, Additionally, Throughout.

SOLUTION

Solution détaillée et commentaire pédagogique : L'activité valide l'intégration des six blocs de compétences du programme (speaking, listening, reading, writing, grammar, vocabulary). Le candidat modèle démontre une progression logique : scanning (input) → production orale/écrite (output) → interaction (médiation). La grille d'évaluation critériée objectivise la notation, conformément aux attentes du Probatoire et du Baccalauréat technique. La remédiation ciblée sur les cinq erreurs types (question tags, ordre des mots dans les embedded questions, Present Perfect Continuous vs Present Perfect Simple, Future Continuous vs Future Simple, séparabilité des phrasal verbs) couvre l'essentiel des pertes de points aux examens officiels.

Étape 5 : Grille d'évaluation (remplie par le Jury pour J. – P. Ngono)

Critère	Note /5	Commentaire du Jury
Grammaire (tenses, embedded questions, tags, phrasal verbs)	4,5	Maîtrise excellente du Present Perfect Continuous et du Future Continuous. 3 phrasal verbs utilisés naturellement. 1 tag mal formé ("I am, am I not?" au lieu de "aren't I?" – erreur classique corrigée en remédiation).
Vocabulaire (technique, loisirs, entretien)	5	Vocabulaire précis (schematics, HSE, transfer switch, shift work). Loisirs bien exploités (captain, teamwork).
Aisance / Prononciation	4	Bon débit, légère hésitation sur "schematics". Contact visuel maintenu.
Contenu / Pertinence	5	Réponses adaptées au poste (maintenance, sécurité, anglais technique). Question finale pertinente.
TOTAL	18,5 / 20	Admis – profil retenu.

Étape 6 : Remédiation collective (exemples corrigés au tableau)

ATTENTION Erreurs fréquentes relevées – Correction collective

1. Present Perfect Continuous vs Present Perfect Simple : *I have studied here for 3 years (accent sur le résultat) vs I have been studying here for 3 years (accent sur la durée, action non terminée). Règle : durée + action non terminée → forme continue.
2. Question tags – cas particulier "I am" : I am late, aren't I? (jamais *amn't I). I am not late, am I?.
3. Embedded questions – ordre des mots : *Could you tell me why did you choose? → Could you tell me why you chose? (pas d'auxiliaire did, ordre sujet-verbe).
4. Future Continuous vs Future Simple : I will attend classes tomorrow (décision ou prédiction simple) vs I will be attending classes at 6 pm tomorrow (action en cours à un moment précis). Le plan d'action exige will be + V-ing.
5. Phrasal verbs – séparabilité : look into the matter (inséparable) vs carry out the task / carry the task out (séparable ; obligatoire avec un pronom : carry it out).

7.6 Bilan de l'activité

Cette activité d'intégration **Job Interview Simulation & Career Language Plan** a permis de :

- **Contextualiser** les apprentissages : l'anglais n'est plus une matière scolaire mais un outil professionnel indispensable pour un technicien camerounais visant le secteur formel (entreprises de maintenance, d'énergie, de télécommunications, partenaires internationaux).
- **Valider la progression grammaticale** : le **Present Perfect Continuous** ancre le parcours an-

térieur et présent ; le **Future Continuous** projette le développement professionnel continu ; les **embedded questions** et **question tags** garantissent la politesse professionnelle et la vérification de l'information ; les **phrasal verbs** assurent la fluidité idiomatique.

- **Développer l'autonomie** : l'élève gère son temps (préparation), s'auto-évalue (grille), corrige ses pairs (remédiation).
- **Préparer l'examen** : le format (Reading + Speaking + Writing + Grammar in context) reproduit fidèlement les exigences des épreuves d'anglais du **Probatoire** et du **Baccalauréat technique** (compréhension de l'écrit, production écrite guidée, grammaire en contexte et interaction orale).

8 MÉTHODES ET EXERCICES RÉSOLUS

8.1 Méthodes et exercices résolus

MÉTHODE Réussir un entretien d'embauche – Speaking & Vocabulary

Objectif : Se présenter, répondre aux questions classiques et poser des questions pertinentes lors d'un entretien professionnel.

1. Préparer son **pitch** de présentation (1 min) : Nom, formation technique, spécialité, stage/expérience clé, qualité principale (ex : rigorous, adaptable, team player).
2. Maîtriser le vocabulaire clé : **apply for a post** (postuler), **CV/résumé**, **cover letter** (lettre de motivation), **qualifications** (diplômes et compétences), **work experience** (expérience professionnelle), **strengths/weaknesses** (forces/faiblesses), **salary expectations** (prétentions salariales), **notice period** (préavis).
3. Structurer les réponses avec la méthode STAR : **Situation**, **Task**, **Action**, **Result**. Ex : « During my internship (S), I had to repair a hydraulic press (T). I diagnosed the fault and replaced the seals (A). The machine restarted and production losses stopped (R). »
4. Gérer les questions pièges : Pour les faiblesses, citer un défaut réel mais en cours d'amélioration (ex : « I sometimes focus too much on details, so I now use checklists to manage time better. »).
5. Poser 2 questions finales : Sur la formation continue, l'équipe, les projets techniques. Éviter la question du salaire au premier entretien.

EXERCICE RÉSOLU 11 Simulation d'entretien pour un poste de technicien maintenance

Énoncé : Vous êtes candidat au poste de Maintenance Technician dans une entreprise agroalimentaire. Le recruteur vous demande : « Tell me about a technical problem you solved recently. » Répondez en utilisant la méthode STAR et le vocabulaire technique approprié. Ensuite, formulez une question à poser au recruteur sur la maintenance préventive.

SOLUTION

Solution détaillée :

Étape 1 : Analyse de la consigne. Le recruteur teste la compétence technique (résolution de problème) et la communication structurée (STAR). Le vocabulaire attendu : **troubleshooting** (dépannage), **downtime** (temps d'arrêt), **preventive maintenance** (maintenance préventive), **root cause** (cause profonde), **spare parts** (pièces de rechange).

Étape 2 : Construction de la réponse (STAR).

- Situation : « During my industrial attachment at a bottling plant in Douala, the conveyor belt on Line 3 stopped unexpectedly during peak production. »
- Task : « My task was to identify the fault and restart the line within 30 minutes to minimize **downtime**. »
- Action : « I performed a **visual inspection** and checked the **PLC** error codes. I detected a **misaligned photoelectric sensor**. I realigned the sensor, tightened the mounting bracket, and ran a **test cycle**. »
- Result : « The line restarted in 20 minutes. I then proposed adding this sensor check to the **daily preventive maintenance checklist** to prevent recurrence. »

Étape 3 : Formulation de la question au recruteur. « Could you tell me more about your **preventive maintenance schedule**? Is it based on the **manufacturer's recommendations**, or do you also use **predictive maintenance** tools like vibration analysis? »

Conclusion : La réponse démontre une compétence technique concrète (capteur, PLC, checklist), une structure claire (STAR) et un vocabulaire précis. La question finale montre un intérêt professionnel pour l'organisation de la maintenance.

MÉTHODE Décrire des activités de loisirs – Listening & Vocabulary

Objectif : Comprendre un texte oral sur les loisirs et en restituer les idées principales avec le vocabulaire spécifique.

1. Identifier le type d'activité : **indoor/outdoor** (en intérieur/en plein air), **individual/team** (individuelle/collective), **physical/intellectual** (physique/intellectuelle).
2. Repérer les marqueurs chronologiques : **first, then, afterwards, finally** ; les expressions de fréquence : **once a week, every weekend, occasionally**.
3. Noter le vocabulaire des sentiments/bénéfices : **unwind/relax** (se détendre), **recharge one's batteries** (recharger ses batteries), **relieve stress** (évacuer le stress), **socialize** (socialiser), **keep fit** (rester en forme), **boost creativity** (stimuler la créativité).
4. Structurer le compte-rendu : Introduction (type, fréquence) → Déroulement (actions) → Ressenti/Bénéfices → Opinion personnelle.
5. Utiliser les temps appropriés : **Present simple** (habitudes), **Present continuous** (action en cours au moment où l'on parle), **Past simple** (récit d'un événement passé).

EXERCICE RÉSOLU 12 Compte-rendu d'écoute : « My Weekend Hiking Routine »

Énoncé : Vous écoutez un technicien décrire son week-end type. Extrait : « I usually wake

up early on Saturdays. I pack my backpack with water, a map and a first-aid kit. I drive to Mount Fako. The hike takes three hours. It is exhausting but the view from the summit is breathtaking. I feel refreshed for the week ahead. » Relevez 5 mots/expressions de vocabulaire « loisirs/équipement », conjuguez les verbes entre parenthèses au temps qui convient, et résumez le texte en 3 phrases.

SOLUTION

Solution détaillée :

1. Vocabulary spotting (5 items) :

- **backpack** (sac à dos)
- **first-aid kit** (trousse de secours)
- **hike** (randonnée – nom/verbe)
- **summit** (sommet)
- **breathtaking** (à couper le souffle)
- **refreshed** (revigoré)

2. Grammar – Verb Tenses (contexte : routine). Le texte décrit une habitude (usually) → Present Simple.

- I usually wake up (wake up) early.
- I pack (pack) my backpack...
- I drive (drive) to Mount Fako.
- The hike takes (take) three hours.
- It is (be) exhausting...
- I feel (feel) refreshed...

Note : Pas de Present Continuous ici car l'action ne se déroule pas au moment de la parole : c'est une routine générale.

3. Summary (3 sentences) : « The speaker usually hikes on Mount Fako on Saturdays. He prepares his equipment carefully, including a first-aid kit. Although the three-hour hike is exhausting, he finds the summit view breathtaking and feels refreshed for the week. »

Conclusion : L'écoute active permet d'extraire le vocabulaire (équipement, ressenti) et de choisir le bon temps (Present Simple pour l'habitude). Le résumé synthétise : Qui/Quoi/Où → Comment → Résultat/Bénéfice.

MÉTHODE**Maîtriser le Present Perfect Continuous & le Future Continuous**

Objectif : Distinguer et utiliser correctement ces deux temps pour exprimer la durée d'une action inachevée (PPC) et une action en cours à un moment futur (FC).

1. Present Perfect Continuous (have/has been + V-ing) :

- Forme : Sujet + have/has + been + base verbale + -ing.
- Usage : Action commencée dans le passé, qui se poursuit maintenant (ou vient de s'arrêter) + insistance sur la durée. Mots-clés : **for** (durée), **since** (point de départ), **lately/recently**, **how long**.
- Exemple : « I have been studying English for three years. » (J'étudie depuis 3 ans et je continue).

2. Future Continuous (will be + V-ing) :

- Forme : Sujet + will + be + base verbale + -ing.
- Usage : Action qui sera en train de se passer à un moment précis dans le futur. Mots-clés : **at this time tomorrow**, **at 8 pm tonight**, **when you arrive**.
- Exemple : « At 10 am tomorrow, I will be sitting for my exam. » (Demain à 10h, je serai en train de passer mon examen).

3. Piège à éviter : Verbes d'état (know, like, want, believe, belong) → pas de forme en -ing. Utiliser le Present Perfect Simple : « I have known him for years » (jamais been knowing).**EXERCICE RÉSOLU 13 Choix du temps et transformation**

Énoncé : A. Complétez avec le Present Perfect Continuous ou le Present Perfect Simple (verbes entre parenthèses). 1. My hands are dirty. I _____ (repair) the generator. 2. She _____ (write) three reports since this morning. 3. How long _____ you _____ (wait) for the technician?

B. Complétez avec le Future Continuous. 4. Don't call at 7 am. I _____ (commute) to the plant. 5. This time next week, we _____ (present) our project.

C. Traduisez en anglais : « Depuis quand est-ce que tu apprends l'anglais ? » et « Demain à 14h, je serai en train de souder la tuyauterie. »

SOLUTION

Solution détaillée :

Partie A : Present Perfect Continuous vs Simple

1. I have been repairing the generator. Justification : Preuve visible dans le présent (My hands are dirty) → insistance sur l'activité qui vient de se dérouler. Verbe d'action dynamique.
2. She has written three reports since this morning. Justification : Résultat quantifié (three reports) → Present Perfect Simple. Le PPC (has been writing) insisterait sur le processus, pas sur le nombre achevé.

3. How long have you been waiting for the technician? Justification : Question sur la durée (How long) + action encore en cours (attente) → PPC standard.

Partie B : Future Continuous

4. Don't call at 7 am. I will be commuting to the plant. Justification : Action en cours à un moment futur précis (at 7 am).
5. This time next week, we will be presenting our project. Justification : Moment futur précis (this time next week) + action longue (présentation) en cours à ce moment-là.

Partie C : Traduction

1. « How long have you been learning English? » (PPC : durée + action continue).
2. « Tomorrow at 2 pm, I will be welding the piping. » (FC : moment futur précis + action technique en cours).

Conclusion : La distinction repose sur Résultat/Quantité (Perfect Simple) vs Processus/Durée (Perfect Continuous) pour le passé/présent, et sur l'action en cours à un instant T futur pour le Future Continuous.

MÉTHODE

Construire des questions indirectes, question tags et phrasal verbs

Objectif : Transformer une question directe en question indirecte (embedded), former les question tags corrects, et utiliser des verbes à particules courants en contexte professionnel.

1. Embedded Questions (questions indirectes) :

- Règle : ordre affirmatif (Sujet + Verbe), PAS d'auxiliaire DO/DID, pas de point d'interrogation si la phrase principale est affirmative.
- Introduteurs : **Can you tell me...**, **I wonder...**, **Do you know...**, **Please explain...**
- Si question fermée (Yes/No) → ajouter **if** ou **whether**.
- Ex : Direct : « Where is the lab? » → Indirect : « Can you tell me where the lab is? »

2. Question Tags :

- Règle : Positif ↔ Négatif. Même auxiliaire/modal que la phrase principale. Sujet = pronom personnel.
- « You are ready, aren't you? » / « He won't come, will he? »
- Cas particuliers : I am → aren't I? / Let's → shall we? / Impératif → will you? / won't you?
- Intonation : montante = vraie question (incertitude); descendante = confirmation attendue.

3. Phrasal Verbs & Prepositional Phrases (contexte technique/professionnel) :

Phrasal Verb	Sens (FR)	Exemple en contexte technique
carry out	effectuer, réaliser	We must carry out the safety audit.
find out	découvrir, s'informer	Please find out the specs of the new motor.
look into	examiner, enquêter sur	The engineer will look into the vibration issue.
set up	installer, configurer	We need to set up the new CNC machine.
shut down	arrêter (machine/système)	Shut down the system before maintenance.
run out of	manquer de, épuiser	We ran out of welding electrodes.

Règle de séparation : l'objet pronom se place entre le verbe et la particule (shut it down). L'objet nom peut se placer après ou entre les deux.

EXERCICE RÉSOLU 14 Transformation et mise en situation

Énoncé : 1. Transformez en question indirecte : « What time does the shift start? » (Début : Could you tell me...) 2. Ajoutez le question tag : The technician hasn't arrived yet, _____? 3. Remplacez le verbe souligné par un phrasal verb de la liste : « We must investigate the cause of the breakdown. » 4. Complétez : « Hand _____ your safety helmet at the gate. » (phrasal verb : **hand in** = remettre). 5. Corrigez l'erreur : « I am late, amn't I? »

SOLUTION

Solution détaillée :

1. Embedded Question : « Could you tell me what time the shift starts? » Analyse : Question ouverte (What time) → on garde le mot interrogatif. Ordre affirmatif : the shift starts (et non does the shift start). L'auxiliaire does disparaît et la marque de la 3^e personne revient sur le verbe (starts).
2. Question Tag : « The technician hasn't arrived yet, has he? » Analyse : Phrase négative (hasn't) → tag positif (has). Sujet The technician → pronom he. Auxiliaire has (Present Perfect).
3. Phrasal Verb (substitution) : « We must look into the cause of the breakdown. » Analyse : Investigate = look into (mener une enquête technique approfondie). Find out conviendrait pour découvrir une information, moins pour analyser une panne.
4. Phrasal Verb (complétion) : « Hand in your safety helmet at the gate. » Analyse : Hand in = remettre, rendre (documents, équipement). L'objet nom your safety helmet peut aussi

précéder la particule : Hand your safety helmet in (les deux sont corrects).

5. Correction du tag : « I am late, aren't I? » Analyse : Cas particulier de I am : le tag négatif standard est aren't I?. La forme amn't I? n'existe pas en anglais standard ; am I not? est correct mais très formel et rarement attendu au Bac.

Conclusion : La maîtrise de l'ordre des mots (embedded questions), de la polarité (tags) et de la séparabilité (phrasal verbs) est cruciale pour l'aisance à l'oral et à l'écrit professionnel.

MÉTHODE Analyser un texte sur les besoins en langue seconde au travail – Reading & Vocabulary

Objectif : Lire un texte professionnel, identifier l'idée principale, les arguments, le vocabulaire spécifique et inférer le sens des mots inconnus.

1. Pré-lecture : Lire le titre, les sous-titres. Prédire le sujet : **language skills** (compétences linguistiques), **multilingual workplace** (milieu de travail multilingue), **globalization** (mondialisation), **technical documentation** (documentation technique).
2. Lecture active :
 - **Skimming** (lecture rapide) : idée générale (thèse : l'anglais est indispensable pour la carrière technique).
 - **Scanning** (recherche ciblée) : chiffres (%), noms d'entreprises, mots-clés (**mandatory** (obligatoire), **asset** (atout), **proficiency** (maîtrise), **technical jargon** (jargon technique)).
3. Gestion du vocabulaire inconnu : contexte (définition dans la phrase), transparence (mots apparentés au français : **communication**, **documentation**, **international**, **qualification**), famille de mots (**require** → **requirement**, **required**).
4. Structure argumentative type : **Context** → **Problem/Need** → **Solution/Training** → **Benefits**.
5. Prise de notes : utiliser un tableau : Argument | Preuve/Exemple | Vocabulaire clé.

EXERCICE RÉSOLU 15 Compréhension de texte : « English in the Technical Workplace »

Énoncé : Lisez l'extrait et répondez aux questions. « In today's globalized industry, English has become the **lingua franca** of technology. Most **technical manuals**, **software interfaces** and **safety protocols** are written in English. A recent survey of employers shows that the large majority of technical job offers in Cameroon require at least an **intermediate level** in English. Technicians who **master** this language can **access** international training, **troubleshoot** equipment using original manuals, and **collaborate** with foreign experts.

Therefore, anticipating one's language needs is not optional; it is a **career imperative**. »

Questions : 1. Expliquez avec vos propres mots l'expression « **lingua franca** » à partir du contexte. 2. Citez 3 types de documents techniques mentionnés. 3. Quel niveau d'anglais est exigé par la majorité des offres d'emploi techniques, selon le texte ? 4. Donnez 3 avantages concrets pour un technicien anglophone (vocabulaire du texte). 5. Expliquez l'expression « **career imperative** » dans le contexte.

SOLUTION

Solution détaillée :

1. Explication de « lingua franca » : Une lingua franca est une langue commune utilisée pour communiquer entre personnes de langues maternelles différentes. Le contexte le montre : les manuels, logiciels et protocoles sont écrits en anglais, et les techniciens collaborent avec des experts étrangers grâce à cette langue partagée.

2. Types de documents techniques :

1. **Technical manuals** (manuels techniques)
2. **Software interfaces** (interfaces logicielles)
3. **Safety protocols** (protocoles de sécurité)

3. Niveau exigé : Selon le texte, la grande majorité des offres d'emploi techniques au Cameroun exige « at least an intermediate level », c'est-à-dire au minimum un niveau intermédiaire en anglais.

4. Avantages concrets (vocabulaire du texte) :

1. **Access international training** (accéder à des formations internationales).
2. **Troubleshoot equipment using original manuals** (dépanner en utilisant les manuels d'origine – éviter les traductions approximatives).
3. **Collaborate with foreign experts** (collaborer avec des experts étrangers).

5. Explication de « career imperative » : « Career imperative » = impératif de carrière, nécessité absolue pour la progression professionnelle. Justification : Le connecteur Therefore (donc) marque la conclusion logique, et not optional (pas optionnel) renforce l'idée d'obligation. Pour un technicien camerounais, ne pas anticiper ce besoin (se former à l'anglais), c'est risquer l'exclusion du marché de l'emploi moderne.

Conclusion : La lecture efficace combine repérage d'informations explicites (listes, niveaux) et inférence lexicale (contexte, connecteurs logiques comme therefore).

MÉTHODE

Rédiger une composition sur les besoins en langue seconde – Writing

Objectif : Produire un texte structuré (150–200 mots), argumenté, avec vocabulaire précis, grammaire correcte (temps, modaux, connecteurs) et registre formel/semi-formel.

1. Analyser le sujet : identifier le thème (besoins en L2 au travail), le format (composi-

tion/essai), la cible (employeur, jury, revue professionnelle), le ton (formel, persuasif).

2. Plan type (3 parties) :

- Introduction (1 paragraphe) : accroche (contexte de la mondialisation) → définition du sujet → **thesis statement** (ex : « Mastering English is a strategic asset for Cameroonian technicians. »).
- Développement (2–3 paragraphes) : 1 idée directrice par paragraphe.
 - **Argument 1 : accès à l'information technique** (manuels, normes, logiciels). Connecteurs : **Firstly, Moreover, For instance.**
 - **Argument 2 : employabilité et mobilité** (marché local/international, certifications, salaires). Connecteurs : **Furthermore, In addition, Consequently.**
 - **Argument 3 : communication professionnelle** (réunions, emails, rapports, sécurité). Connecteurs : **Finally, Additionally.**
- Conclusion (1 paragraphe) : résumé des arguments → recommandation/appeal à l'action (ex : « Technical schools should integrate ESP (English for Specific Purposes) modules. »).

3. Check-list de révision (auto-correction) :

- **Word count** respecté ? **Paragraphing** visible (saut de ligne) ?
- **Tenses** cohérents (Present simple pour les vérités générales, modaux should/must/can pour les recommandations) ?
- **Vocabulaire technique** utilisé (**ESP, proficiency, technical documentation, troubleshooting, curriculum**) ?
- **Connecteurs logiques** variés (pas seulement and, but, because) ?
- **Orthographe/Ponctuation** (majuscule en début de phrase, points) ?

EXERCICE RÉSOLU 16

Rédaction guidée : « Why English matters for my technical career »

Énoncé : Rédigez une composition de 160 mots environ sur le thème : « Anticipating one's second-language needs at work is essential for a successful technical career. » Suivez le plan : Introduction → 2 arguments développés → Conclusion avec recommandation. Utilisez au moins 5 mots du vocabulaire de l'unité (**lingua franca, technical manuals, proficiency, troubleshooting, employability, mandatory, asset, curriculum**).

SOLUTION

Solution détaillée :

Proposition de rédaction (modèle corrigé) :

English : A Strategic Asset for Technical Careers

In today's globalized industry, English has established itself as the **lingua franca** of technology. For a Cameroonian technician, anticipating second-language needs is no longer a simple option but a **career imperative**. Mastering English, specifically **English for Specific Purposes (ESP)**, is a decisive **asset** for professional success.

Firstly, technical proficiency depends heavily on access to information. Most **technical manuals**, software interfaces, and international safety standards are published in English. A technician with a good **proficiency** level can **troubleshoot** complex equipment using original documentation, avoiding dangerous translation errors. **For instance**, reading a hydraulic schematic in English allows for faster and safer maintenance operations.

Furthermore, **employability** is directly linked to language skills. Many technical job offers now list English as **mandatory**. Bilingual technicians access international training, collaborate with foreign experts, and command higher salaries. The **curriculum** in technical schools must reflect this reality.

In conclusion, investing in English learning is investing in one's future. I strongly **recommend** that technical institutions integrate specialized English modules to prepare students for the real demands of the labour market.

Analyse du modèle (check-list) :

- Mots : environ 165 mots (dans la fourchette demandée).
- Structure : 4 paragraphes distincts (Introduction, Argument 1, Argument 2, Conclusion).
- Vocabulaire de l'unité (plus de 5 requis) : **lingua franca, technical manuals, proficiency, troubleshoot, employability, mandatory, asset, curriculum, career imperative, ESP**.
- Grammaire : Present Simple (vérités générales), modaux (can, must), voix passive (are published, is linked).
- Connecteurs : **Firstly, For instance, Furthermore, In conclusion**.
- Registre : formel, impersonnel par moments (is established, must reflect), personnel et engagé à la fin (I recommend).

Conclusion : Une composition réussie au Bac technique allie structure rigoureuse, vocabulaire de spécialité (ESP) et correction grammaticale. L'entraînement régulier sur des sujets types (sécurité, maintenance, formation) est la clé.

ATTENTION Les 5 erreurs qui coûtent des points au Bac

1. Confusion Present Perfect Continuous / Present Perfect Simple : écrire « I have been written the report » au lieu de « I have written the report » (résultat) ou « I have been writing the report » (processus). Règle : résultat chiffré/achevé → Simple ; durée/processus en cours → Continuous. Verbes d'état (know, have, be) → JAMAIS de

continuous.

2. Mauvaise formation des Embedded Questions : garder l'ordre interrogatif ou l'auxiliaire DO. Incorrect : « Can you tell me what time does the shift start ? » Correct : « ... what time the shift starts. » (ordre affirmatif, pas de DO, pas de point d'interrogation si la phrase principale est déclarative).
3. Question Tags : oubli de l'inversion de polarité ou mauvais pronom. Incorrect : « He is a technician, is he ? » Correct : « He is a technician, isn't he ? » (tag négatif + pronom sujet). Cas particulier : I am → aren't I ?
4. Phrasal Verbs : position de l'objet pronom. Incorrect : « Shut down it. » Correct : « Shut it down. » (l'objet pronom doit s'intercaler). Ne pas confondre find out (découvrir une information) et find (trouver un objet).
5. Rédaction (Writing) : hors-sujet, absence de paragraphes, vocabulaire trop général. Écrire « English is good » au lieu de « English is a **mandatory requirement** for reading **technical documentation** ». Sanction : pénalité lourde sur « Contenu » et « Vocabulaire ». Utiliser les mots de la leçon (**proficiency, troubleshooting, employability, asset, curriculum**).

9

EXERCICES

9.1 Je vérifie mes connaissances

EXERCICE 15 QCM : Job interview vocabulary

Choose the correct word or expression to complete each sentence. Circle the letter of the best answer.

1. Before the interview, you should _____ the company to learn about its activities.
 - a) ignore
 - b) research
 - c) avoid
 - d) forget
2. A firm _____ makes a good first impression. (poignée de main ferme)
 - a) handshake
 - b) handwriting
 - c) handbag
 - d) handout
3. During the interview, you must _____ your relevant skills. (mettre en valeur)
 - a) hide
 - b) highlight
 - c) lower
 - d) copy
4. Arrive at least 15 minutes _____ for the interview.
 - a) late
 - b) slowly
 - c) early
 - d) behind
5. At the end, the interviewer may say : "Do you have any _____ to ask?"
 - a) answers
 - b) questions

c) salaries

d) excuses

EXERCICE 16 Vrai/Faux justifié : Recreational activities

Read the statements and write True or False. Justify each answer with a short phrase.

- | | |
|--|--------------|
| 1. Hiking in the mountains is a recreational activity. | True / False |
| 2. Watching TV all day is considered a healthy recreational habit. | True / False |
| 3. Playing football with friends helps reduce stress. | True / False |
| 4. Recreational activities are only for children. | True / False |
| 5. Reading a novel can be a recreational activity. | True / False |

EXERCICE 17 Définitions : Grammar terms

Match each term (1–5) with its correct definition (a–e).

Term	Definition (letter)
1. Present Perfect Continuous	
2. Future Continuous	
3. Embedded Question	
4. Question Tag	
5. Phrasal Verb	

- a) A question inside another question or statement.
- b) An action that will be in progress at a specific future time.
- c) A verb combined with a particle (preposition or adverb) changing its meaning.
- d) A short question added to the end of a statement.
- e) An action started in the past and continuing now (or just finished).

EXERCICE 18 Calculs directs : Tense formation

Write the correct form of the verb in brackets using the indicated tense.

1. She _____ (work) at this company for five years. (Present Perfect Continuous)

2. At 10 a.m. tomorrow, I _____ (attend) a meeting. (Future Continuous)
3. How long _____ you _____ (study) English? (Present Perfect Continuous)
4. Next week, they _____ (prepare) the exhibition. (Future Continuous)
5. We _____ (wait) for the bus for 20 minutes. (Present Perfect Continuous)

9.2 Je m'entraîne

EXERCICE 19 Job interview role-play : Instructions

Work in pairs. Student A is the interviewer, Student B is the candidate. Use the prompts to give and receive instructions. Then swap roles.

1. Interviewer : Ask the candidate to introduce themselves. (Could you tell me about yourself?)
2. Candidate : Respond with name, qualification, experience.
3. Interviewer : Ask about strengths and weaknesses.
4. Candidate : Give one strength and one weakness with improvement.
5. Interviewer : Ask why they want this job.
6. Candidate : Mention company reputation, career growth.
7. Interviewer : Invite questions from the candidate.
8. Candidate : Ask about training opportunities.

EXERCICE 20 Listening comprehension : Recreational dialogue

Listen to the dialogue between Paul and Marie (played twice). Answer the questions in complete sentences.

1. What recreational activity does Paul prefer?
2. How often does Marie go swimming?
3. Why does Paul not like video games?
4. What activity do they decide to do together this weekend?
5. True or False : Marie thinks hiking is boring. Justify.
6. What time do they plan to meet?

EXERCICE 21 Grammar practice : Embedded questions & Question tags

1. Transform into embedded questions after Could you tell me... :

- (a) Where is the interview room?
- (b) What time does the manager arrive?
- (c) Does the company offer training?
- (d) How many candidates applied?

2. Add the correct question tag :

- (a) You are ready for the interview, _____?
- (b) Let's prepare our CVs, _____?
- (c) Don't be late, _____?
- (d) I am the best candidate, _____?
- (e) Nobody called, _____?

ATTENTION Pièges fréquents : question tags

- After I am, the tag is aren't I? (never "amn't I").
- After Let's..., the tag is shall we?.
- After an imperative (Don't be late), the tag is will you?.
- After nobody / no one / somebody, use they in the tag.
- In embedded questions, keep the statement order : Could you tell me where the room is? (not "where is the room").

EXERCICE 22 Phrasal verbs in context

Complete the paragraph with the correct phrasal verb from the box. Use the right tense and form.

fill in	look forward to	get along with	turn up	find out
hand in	take on	run out of	set up	carry out

On my first day as an intern at a tech firm in Bafoussam, I had to _____ several forms. I was nervous but the team was friendly and I _____ them well. My supervisor asked me to _____ a new project. I need to _____ more about the software. I must _____ my report by Friday. I _____ learning new skills.

9.3 Je me prépare au Bac

EXERCICE 23 Bac Grammar : Tense completion — Technician's career

Complete the text with the Present Perfect Continuous or Future Continuous form of the verbs in brackets. Jean is a maintenance technician in Yaoundé. He _____ (work) at CAMWATER for eight years. Currently, he _____ (upgrade) the pumping station system. By this time next month, he _____ (attend) a specialised training in Douala. He _____ (study) English for two years because he _____ (work) on an international project soon. His colleague, Marie, _____ (prepare) the technical report all morning. Next week, they _____ (inspect) the new pipelines. Jean _____ (apply) for a promotion recently. He hopes that by next year, he _____ (manage) a team.

EXERCICE 24 Probatoire Reading Comprehension : English needs at SONARA

Read the text and answer the questions.

English at the Workplace : A SONARA Employee's Perspective

Pierre Ngono has worked as a process operator at SONARA's Limbe refinery for twelve years. Recently, the company announced a partnership with an international energy firm from the United Kingdom. This collaboration means that technical manuals, safety protocols, and daily briefings will increasingly be in English. Pierre realised that his basic school English was insufficient for understanding complex technical documents. He enrolled in evening classes to improve his technical vocabulary and listening skills. His goal is to participate confidently in video conferences with British engineers and to read maintenance schematics without translation. Pierre's supervisor encouraged him, noting that operators with strong English skills are prioritised for overseas training programmes. Pierre now spends one hour daily practising with online platforms and colleagues. He says : "English is no longer just a subject ; it is a tool for my career growth and safety at work."

1. How long has Pierre worked at SONARA?
2. Why does Pierre need to improve his English now?
3. What specific skills is Pierre focusing on in his evening classes?
4. What advantage does his supervisor mention for operators with good English?
5. Find in the text words or expressions that mean :
 - (a) working together with another company (paragraph 1)
 - (b) not enough (paragraph 2)
 - (c) diagrams showing how to repair equipment (paragraph 2)
 - (d) given priority (paragraph 3)

EXERCICE 25 Bac Technique Writing : Composition

Write a composition of 200–250 words on the following topic :

“The importance of English for your future career as a technical professional.”

Guidelines (barème sur 20 points) :

- Content / Relevance (6 pts) : Clear thesis, specific examples from your technical field, mention of concrete situations (manuals, conferences, safety, promotion, international projects).
- Organisation (4 pts) : Introduction with hook and thesis, 2–3 well-developed body paragraphs, conclusion.
- Grammar & Structures (5 pts) : Correct use of Present Perfect Continuous, Future Continuous, embedded questions, question tags, phrasal verbs, varied sentence structures.
- Vocabulary (3 pts) : Technical and professional vocabulary (at least 8 relevant terms), appropriate register.
- Mechanics (2 pts) : Spelling, punctuation, capitalization, paragraphing.

Plan your composition before writing. Use connectors : furthermore, consequently, for instance, in addition, ultimately.

MÉTHODE How to write your composition

1. Brainstorm (5 min) : list 3 concrete situations where English is needed in your trade (reading a manual, talking to a foreign client, attending a training).
2. Plan : Introduction (hook + thesis) ; Body 1 (English for technical documents and safety) ; Body 2 (English for career growth and international projects) ; Conclusion (personal commitment).
3. Write : include at least one Present Perfect Continuous (I have been learning English for...), one Future Continuous (I will be using English when...), one embedded question (I would like to know whether...), one question tag and two phrasal verbs (carry out, look forward to, find out).
4. Check : word count (200–250), verb tenses, spelling, paragraphing.

10 CORRIGÉS DES EXERCICES

11 FAMILY AND SOCIAL LIFE

11.1 Undergoing a job interview — Speaking & Vocabulary

CORRIGÉ Exercice 1 — QCM : Job interview vocabulary

1. b) research — Before an interview, you must research (**se renseigner sur**) the company to know its activities, products and values.
2. a) handshake — A firm handshake (**une poignée de main ferme**) makes a good first impression. Handwriting = écriture ; handbag = sac à main ; handout = document distribué.
3. b) highlight — You must highlight (**mettre en valeur**) your relevant skills, not hide them.
4. c) early — Arrive at least 15 minutes early (**en avance**) ; arriving late creates a bad impression.
5. b) questions — The interviewer asks : “Do you have any questions to ask ?”

Point de vigilance : ne pas confondre research (se renseigner, faire des recherches) et search (chercher un objet physique).

CORRIGÉ Exercice 5 — Job interview role-play (production orale)

Exercice de production orale : toute réponse correcte et polie est acceptée. Modèle de dialogue attendu :

- A : Good morning. Could you tell me about yourself ?
- B : Good morning. My name is Amina Fotso. I hold a **Baccalauréat technique** in electrical engineering and I did a three-month internship at **ENEO**.
- A : What are your strengths and weaknesses ?
- B : I am hardworking and punctual. My weakness is that I speak English slowly, but I have been taking evening classes to improve.
- A : Why do you want this job ?
- B : Your company has an excellent reputation, and this position will help me grow professionally.

- A : Do you have any questions to ask?
- B : Yes, could you tell me whether the company offers training opportunities? (**Embedded question**)

Grille d'évaluation orale (10 pts) : politesse et salutations (2 pts), exactitude grammaticale (2 pts), vocabulaire de l'entretien (2 pts), aisance et prononciation (2 pts), respect des consignes (2 pts).

11.2 Recreational activities — Listening & Vocabulary

CORRIGÉ Exercice 2 — Vrai/Faux : Recreational activities

1. True — Hiking is an outdoor recreational activity (randonnée = loisir de plein air).
2. False — Watching TV all day is a sedentary habit ; it is not healthy because it lacks physical activity.
3. True — Playing football releases tension, so it helps reduce stress.
4. False — Recreational activities are for everyone : children, adults and elderly people all need leisure.
5. True — Reading a novel for pleasure is a recreational (indoor) activity.

Point de vigilance : la justification doit être une phrase courte commençant par because ou un tiret explicatif ; une réponse sans justification ne vaut que la moitié des points.

CORRIGÉ Exercice 6 — Listening comprehension : Recreational dialogue

Réponses attendues (d'après le script du dialogue) :

1. Paul prefers hiking (in the mountains).
2. Marie goes swimming twice a week.
3. Paul does not like video games because they are sedentary and tiring for the eyes.
4. They decide to go hiking together this weekend.
5. False — Marie thinks hiking is exciting/refreshing, not boring.
6. They plan to meet at 7 a.m. (on Saturday morning).

Point de vigilance : répondre par des phrases complètes (Paul prefers hiking), pas par un seul mot ; en compréhension orale au Bac, une réponse juste mais mal formulée perd des points de langue.

11.3 Tenses : Present Perfect Continuous & Future Continuous

À RETENIR Formules des temps clés

- **Present Perfect Continuous** : have/has + been + V-ing
Action commencée dans le passé et qui se poursuit maintenant (ou vient de s'arrêter).
Marqueurs : for, since, all day, recently, how long.
- **Future Continuous** : will + be + V-ing
Action qui sera en cours à un moment précis du futur. Marqueurs : at this time tomorrow, by next week, next Monday, in two days.

CORRIGÉ Exercice 3 — Définitions : Grammar terms

Term	Definition (letter)
1. Present Perfect Continuous	e) An action started in the past and continuing now.
2. Future Continuous	b) An action in progress at a specific future time.
3. Embedded Question	a) A question inside another question or statement.
4. Question Tag	d) A short question added to the end of a statement.
5. Phrasal Verb	c) A verb + particle changing its meaning.

Moyen mnémotechnique : continuous = en cours ; embedded = enchâssée (imbriquée) ; tag = étiquette (petite question "collée" à la fin).

CORRIGÉ Exercice 4 — Calculs directs : Tense formation

1. She has been working at this company for five years. (for five years → Present Perfect Continuous ; sujet she → has.)
2. At 10 a.m. tomorrow, I will be attending a meeting. (at 10 a.m. tomorrow = moment précis futur → Future Continuous.)
3. How long have you been studying English? (Question : How long have/has + sujet + been + V-ing.)
4. Next week, they will be preparing the exhibition. (next week → Future Continuous.)
5. We have been waiting for the bus for 20 minutes. (for 20 minutes → Present Perfect Continuous.)

Formules à retenir : Present Perfect Continuous : have/has + been + V-ing ; Future Conti-

nuous : will + be + V-ing. Point de vigilance : ne jamais oublier been (PPC) ni be (FC) ; vérifier l'accord have/has à la 3^e personne du singulier.

CORRIGÉ Exercice 9 — Bac Grammar : Tense completion — Technician's career

Texte complété :

1. He has been working at **CAMWATER** for eight years. (for eight years → durée jusqu'à maintenant)
2. Currently, he has been upgrading the pumping station system. (currently + durée implicite → PPC pour insister sur la progression)
3. By this time next month, he will be attending a specialised training in Douala. (by this time next month → moment futur précis → FC)
4. He has been studying English for two years. (for two years → durée → PPC)
5. because he will be working on an international project soon. (soon / contexte futur → FC pour action en cours future)
6. Marie has been preparing the technical report all morning. (all morning → durée jusqu'à maintenant → PPC)
7. Next week, they will be inspecting the new pipelines. (next week → FC)
8. Jean has been applying for a promotion recently. (recently → action récente répétée → PPC)
9. By next year, he will be managing a team. (by next year → moment futur précis → FC)

Barème indicatif (9 pts) : 1 pt par forme correcte ; 0,5 pt si le bon temps est choisi mais la forme est fautive (ex. "has been work"). Points de vigilance : citer le marqueur temporel qui justifie chaque choix ; ne pas oublier been (PPC) ni be (FC) ; vérifier l'accord have/has (3^e pers. sg → has).

11.4 Embedded questions, Question tags & Phrasal verbs

À RETENIR Règles clés : Embedded Questions

- Ordre sujet + verbe (pas d'inversion).
- Pas d'auxiliaire do/does/did.
- Question fermée → if / whether.
- Pas de point d'interrogation à l'intérieur, seulement à la fin de la phrase principale.

À RETENIR Règles clés : Question Tags

- Énoncé affirmatif → Tag négatif (aren't you?, didn't he?).
- Énoncé négatif (mots : nobody, never, hardly, seldom) → Tag affirmatif (did they?, does he?).
- Sujet du tag = pronom personnel correspondant au sujet.
- Cas spéciaux : I am → aren't I? ; Let's → shall we? ; Impératif → will you? ; Don't → will you?

CORRIGÉ Exercice 7 — Embedded questions & Question tags

1. Embedded questions (ordre sujet-verbe, sans inversion, sans point d'interrogation interne) :

- Could you tell me where the interview room is?
- Could you tell me what time the manager arrives?
- Could you tell me if/whether the company offers training? (question fermée → if/whether)
- Could you tell me how many candidates applied? (pas d'auxiliaire did dans la question enchâssée)

2. Question tags :

- You are ready for the interview, aren't you? (affirmatif → tag négatif)
- Let's prepare our CVs, shall we? (cas spécial Let's)
- Don't be late, will you? (impératif négatif → will you)
- I am the best candidate, aren't I? (cas spécial I am)
- Nobody called, did they? (nobody = sens négatif → tag affirmatif avec they)

Points de vigilance : (1) dans une question enchâssée, on supprime l'inversion et l'auxiliaire do/does/did ; (2) un énoncé déjà négatif (nobody, never, hardly) exige un tag affirmatif ; (3) aren't I? et non amn't I?.

CORRIGÉ Exercice 8 — Phrasal verbs in context

On my first day as an intern at a tech firm in **Bafoussam**, I had to fill in several forms (**remplir**). I was nervous but the team was friendly and I got along with them well (je me suis bien entendu avec — passé : get → got). My supervisor asked me to take on a new project

(**prendre en charge**). I need to find out more about the software (**me renseigner**). I must hand in my report by Friday (**remettre**). I look forward to learning new skills (**j'attends avec impatience** + V-ing).

Points de vigilance :

- Look forward to est suivi d'un nom ou d'un V-ing : I look forward to learning (jamais "to learn").
- Accord des temps : le récit est au passé → got along with ; les obligations présentes restent à la base verbale après need to / must.
- Verbes non utilisés ici mais à connaître pour le Bac : turn up (arriver), run out of (être à court de), set up (installer), carry out (effectuer).

11.5 Anticipating second-language needs at work — Reading & Vocabulary

CORRIGÉ

Exercice 10 — Probatoire Reading Comprehension : English needs at SONARA

1. Pierre has worked at **SONARA** for twelve years. (§1 : "for twelve years")
2. He needs to improve his English because SONARA has announced a partnership with a British energy firm : technical manuals, safety protocols and daily briefings will increasingly be in English, and his basic school English is insufficient for complex technical documents.
3. In his evening classes, he is focusing on technical vocabulary and listening skills.
4. His supervisor notes that operators with strong English skills are prioritised for overseas training programmes.
5. Vocabulaire (mots exacts du texte) :
 - a) partnership / collaboration (travailler ensemble avec une autre entreprise)
 - b) insufficient (pas suffisant)
 - c) maintenance schematics (schémas de maintenance/réparation)
 - d) prioritised (prioritaires, "given priority")

Barème indicatif (10 pts) : questions 1–4 : 2 pts chacune (1 pt sens + 1 pt langue) ; question 5 : 0,5 pt par mot. Points de vigilance : répondre en phrases complètes en s'appuyant sur le texte ; pour la question de vocabulaire, recopier le mot exact du texte, pas un synonyme personnel.

11.6 Writing : Composition on second-language needs at work

CORRIGÉ Exercice 11 — Bac Technique Writing : Composition

Modèle de composition (environ 230 mots) :

English : A Key Tool for My Career as a Technician

In today's globalised world, English is no longer just a school subject ; it is a professional tool. As a future maintenance technician, I am convinced that mastering English will determine my success at work.

First of all, most technical documents are written in English. Machine manuals, safety protocols and maintenance schematics rarely exist in French. A technician who cannot read them risks making dangerous mistakes. I have been studying technical English for two years, and I can already understand simple manuals without translation.

Furthermore, English opens the door to career growth. Companies like SONARA or CAM-WATER work with foreign partners, so employees with good English are prioritised for overseas training. Next year, I will be applying for an internship in an international firm, and I will be using English during video conferences with foreign engineers. I would like to know whether my school offers additional language courses, because I look forward to improving my speaking skills.

In conclusion, English is essential for safety, efficiency and promotion in technical careers. It is a tool I must carry with me everywhere, isn't it ? I am determined to carry out my studies seriously and to find out about every opportunity to practise, because my professional future depends on it.

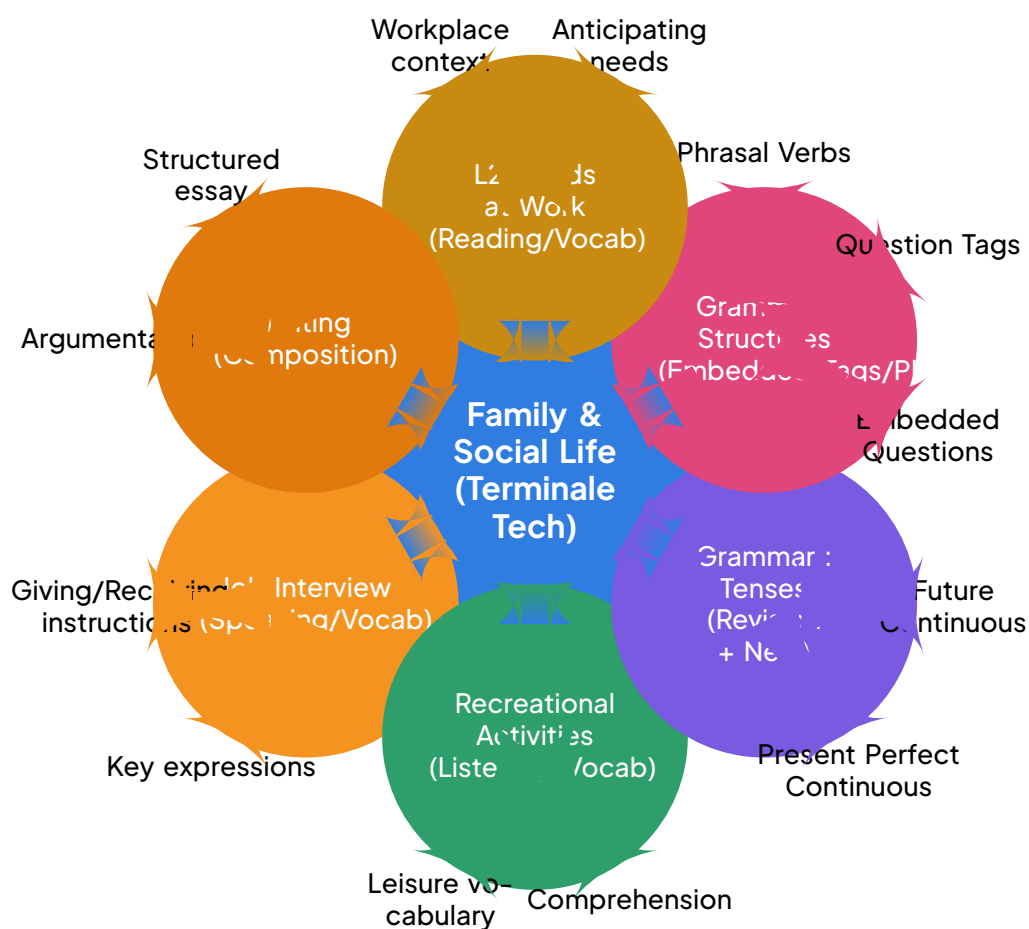

Barème indicatif (20 pts) :

- Contenu et pertinence : 6 pts (thèse claire 2 pts ; exemples concrets du domaine technique 3 pts ; situations mentionnées 1 pt).
- Organisation : 4 pts (introduction 1 pt ; paragraphes développés 2 pts ; conclusion 1 pt).
- Grammaire et structures : 5 pts (au moins un **Present Perfect Continuous**, un **Future Continuous**, une **Embedded Question**, un **Question Tag**, deux **Phrasal Verbs** correctement employés).
- Vocabulaire : 3 pts (au moins 8 termes techniques/professionnels, registre adapté).
- Mécanique : 2 pts (orthographe, ponctuation, paragraphes, 200–250 mots).

Points de vigilance : respecter le nombre de mots (pénalité en dessous de 200) ; vérifier chaque question tag (auxiliaire + pronom) ; ne pas écrire "I look forward to improve" mais "to improving" ; utiliser des connecteurs (furthermore, consequently, in addition, ultimately).

12 FICHE BILAN

12.1 Mindmap of the Lesson

Mindmap of Lesson 01 : Family and Social Life (Terminale Technique).

12.2 Bilan des savoirs et savoir-faire

FICHE BILAN L'essentiel à connaître pour l'examen

1. Speaking & Vocabulary : Undergoing a Job Interview

- Function : Giving and receiving instructions for a job interview.
- Key Vocabulary (Mots-clés) : **application letter** (lettre de motivation), **CV/résumé**, **interviewer / interviewee**, **dress code** (code vestimentaire), **punctuality** (ponctualité), **background** (parcours), **strengths/weaknesses** (forces/faiblesses), **salary expectations** (prétentions salariales), **referee** (référént).
- Useful Expressions (Expressions utiles) :
 - "Could you tell me about yourself?" (Parlez-moi de vous.)
 - "What are your strengths?" (Quels sont vos atouts?)
 - "I have experience in..." (J'ai de l'expérience dans...)
 - "When will I hear from you?" (Quand aurai-je des nouvelles?)

2. Listening & Vocabulary : Recreational Activities

- Context : Leisure, hobbies, sports, cultural events.
- Key Vocabulary : **outdoor/indoor activities** (activités de plein air / intérieures), **hobby** (passe-temps), **unwind** (se détendre), **team building** (cohésion d'équipe), **work-life balance** (équilibre vie pro/vie perso), **spectator** (spectateur), **participant**.

3. Grammar : Tenses (Revision + New Forms)

Tense / Temps	Structure / Structure	Usage / Emploi (Exemples)
Present Perfect Continuous Présent parfait continu	have/has + been + V-ing I have been learning English for 3 years.	Action started in past, continuing now or just stopped with visible result. Je'apprends l'anglais depuis 3 ans (et je continue).
Future Continuous Futur continu (en be + ing)	will + be + V-ing This time tomorrow, I will be sitting for my exam.	Action in progress at a specific future time. Demain à cette heure, je serai en train de passer mon examen.
Revision (Révision)	Present Simple/Continuous, Past Simple/Continuous, Present Perfect Simple, Future Simple (will/going to).	Narrating, describing habits, finished past actions, predictions.

4. Grammar : Complex Structures

DÉFINITION Embedded Questions / Questions indirectes imbriquées

Used after introductory phrases (Do you know..., I wonder..., Can you tell me...).
Word order : Subject + Verb (NO inversion, NO auxiliary do/does/did).

- Direct : "Where does he live?" → Embedded : "Do you know where he lives?"
- Yes/No questions → use if/whether : "Is she ready?" → "I wonder if she is ready."

DÉFINITION Question Tags / Questions d'appui

Short question at end of statement. Rule : Positive statement → Negative tag ;
Negative statement → Positive tag. Same auxiliary/modal. Pronoun matches subject.

You are ready, aren't you?	(Pos → Neg)
He hasn't come, has he?	(Neg → Pos)
Let's go, shall we?	(Imperative let's)
Don't forget, will you?	(Imperative negative)

DÉFINITION Phrasal Verbs & Prepositional Phrases / Verbes à particules & Locutions prépositionnelles

Verb + Particle (adverb/preposition) changing meaning. Often informal.

- **fill in** (remplir – a form), **look for** (chercher), **look forward to + V-ing** (avoir hâte de), **get along with** (s'entendre avec), **run out of** (manquer de), **put up with** (supporter), **turn down** (refuser), **apply for** (postuler à).

5. Reading & Vocabulary : Anticipating Second-Language Needs at Work

- Context : Professional environments requiring English/French bilingualism (Came-roon context).
- Key Concepts : **bilingual proficiency** (compétence bilingue), **technical jargon** (jargon technique), **business correspondence** (correspondance commerciale), **negotiation skills** (compétences en négociation), **report writing** (rédaction de rapports), **soft skills** (savoir-être).

6. Writing : Composition on Second-Language Needs

MÉTHODE Structuring a Composition / Structurer une rédaction

1. Analyse the prompt : Identify topic (needs), audience (employer/school), format (essay/letter/report).
2. Outline : Introduction (Hook + Thesis statement), Body Paragraphs (1 idea = 1 paragraph : Argument + Example/Linker), Conclusion (Restate thesis + Final thought/Recommendation).
3. Linkers (Connecteurs) : Furthermore, Moreover, In addition (Addition); However, On the other hand (Contrast); Consequently, Therefore (Consequence); For instance, Such as (Example).
4. Proofread : Check tenses, subject-verb agreement, spelling, word count.

12.3 Checklist avant le Bac**À RETENIR** Checklist avant le Bac – Lesson 01

- ☐ I can simulate a job interview (giving/receiving instructions) using appropriate register.
- ☐ I know key vocabulary for job interviews (CV, strengths, weaknesses, dress code, referees).
- ☐ I understand listening texts about recreational activities and can extract specific info.
- ☐ I master the form and use of Present Perfect Continuous (have/has been + V-ing).
- ☐ I master the form and use of Future Continuous (will be + V-ing).
- ☐ I can transform direct questions into Embedded Questions (correct word order : S+V).
- ☐ I can form correct Question Tags (polarity switch, pronoun/auxiliary match).
- ☐ I can use 10+ common Phrasal Verbs in context (fill in, look forward to, apply for...).
- ☐ I can read a text on L2 needs at work and answer comprehension questions.
- ☐ I know vocabulary for workplace language needs (jargon, correspondence, negotiation, reports).
- ☐ I can write a structured composition (Intro/Body/Conclusion) with linkers on L2 needs.

- ☐ I can integrate all skills in a realistic professional scenario (Integration Activity).
