

## FICHE DE TD 3/3 • DIFFICILE

Anglais • Tle T

**Media and communication**

Anglais – classe de Terminale technique

**Fiche de TD – Media and communication (niveau difficile)**

Cette fiche propose des situations d'intégration exigeantes mobilisant le vocabulaire des TIC, la grammaire générale et les compétences de production écrite et orale. Rédigez toutes vos réponses en anglais, en soignant la démarche et la justification.

**EXERCICE 1** **Subscribing to service packages – Critical analysis**

The table below shows the offers of two telephone and internet providers operating in Yaoundé.

| Criteria             | Provider A    | Provider B   |
|----------------------|---------------|--------------|
| Monthly subscription | 5 000 FCFA    | 9 500 FCFA   |
| Data volume          | 10 GB         | Unlimited    |
| Connection speed     | 4 Mbps        | 20 Mbps      |
| Contract duration    | No commitment | 12 months    |
| Customer service     | Online only   | 24/7 hotline |

- Using appropriate vocabulary (subscription, data bundle, commitment, coverage, top-up...), write a dialogue (about 150 words) between two friends, Amina and Boris, who express and justify their preferences for one of these providers. Each speaker must defend a different choice.
- In the dialogue above, underline and identify : two conditional sentences (type 1 and type 2), one comparative structure, and one passive form. Justify the use of each tense.
- Transform the following sentences as indicated :
  - "Provider B offers unlimited data." (Turn into a question tag.)
  - "I will subscribe if the network coverage improves." (Rewrite using unless.)
  - "The technician installed the router yesterday." (Turn into the passive voice.)
- Amina says : "I wish I had subscribed earlier." Explain the grammatical structure used and express the same regret in two other ways.

**EXERCICE 2** **ICTs to enhance work and learning – Guided writing**

Read the following excerpt, then answer the questions.

“In many technical schools in Cameroon, students now use tablets and e-learning platforms to prepare for their practical examinations. However, irregular power supply, expensive data bundles and poor network coverage still limit the effectiveness of these tools, especially in rural areas.”

1. Find in the text three words or expressions related to using ICTs to enhance learning and give a synonym or definition for each.
2. Write a well-structured essay (250–300 words) entitled : “Can ICTs genuinely improve the quality of technical education in Cameroon?” Your essay must include an introduction, two developed arguments supported by concrete examples, a counter-argument, and a personal conclusion.
3. In your essay, make sure you correctly use : at least two linking words of concession (although, however, whereas...), one relative clause, and one sentence in the present perfect. Highlight them.
4. Grammar focus : complete with the correct form of the verbs in brackets.
  - (a) If the government (invest) ... more in broadband, students in rural areas (benefit) ... from e-learning.
  - (b) By the time the platform was launched, many students (already / register) ....
  - (c) The teacher suggested that the documents (upload) ... before Friday.

### EXERCICE 3 ICTs as recreational resources – Problem situation

Your neighbourhood youth club wants to organise a “Digital Leisure Day” to show parents and teenagers how ICTs (video games, streaming, social networks, online music) can be used as recreational resources at home and in the community in a balanced way.

1. Prepare the speech (about 200 words) that the club president will deliver at the opening. It must : greet the audience, present the aims of the event, mention two benefits and two risks of recreational ICT use, and give one piece of advice for a balanced use.
2. Write the invitation letter (formal register, 120–150 words) addressed to the Divisional Delegate of Youth Affairs, requesting his presence and support.
3. Vocabulary in context : complete the sentences with the appropriate word from the list (use each once) : streaming – addiction – offline – leisure – screen time – community centre.
  - (a) Excessive ... may cause eye strain and sleep disorders among teenagers.
  - (b) Watching films online without downloading them is called ....
  - (c) The event will take place at the ... of Mvog-Ada.

- (d) Some applications can still be used in ... mode, without any internet connection.
4. Debate preparation : write three arguments for and three arguments against the motion : "Social networks do more harm than good to young people's leisure time." Use impersonal structures (It is argued that..., It cannot be denied that...).

**EXERCICE 4** Integration and evaluation – Mini-project

(2 pts de présentation) Your school has received a grant to improve communication and digital access. As class representative, you must defend a project before the school council.

1. Write a project proposal (200–250 words) including : the context and the problem identified, the solution you propose (e.g. a Wi-Fi zone, a multimedia room, a school website), the expected benefits for learning and recreation, and a short budget justification.
2. Your proposal must contain and highlight : one sentence with a modal of obligation, one with a modal of possibility, one reported speech sentence, and one sentence using the gerund as subject.
3. Anticipate the jury's questions : write two likely questions and your short, polite, well-argued answers.
4. Self-evaluation : list the three main difficulties you encountered in this fiche and, for each, the remediation strategy you plan to adopt.
